Addition and Correction

Vol. 278 (2003) 29086–29097

Rho-dependent Rho kinase activation increases CD44 surface expression and bone resorption in osteoclasts.

Meenakshi A. Chellaiah, Rajat S. Biswas, Susan R. Rittling, David T. Denhardt, and Keith A. Hruska

Page 29086, Abstract: The first sentence should read: Osteoclasts from osteopontin-deficient mice exhibit decreased CD44 surface expression.
