Figure S1. Decision-tree algorithm for up-to-seven criteria with Profile 1. Decision-tree algorithm for CR. The pie graphs indicate the percentage of CR (white)/non-CR (black) patients in each group. CR, complete response.
Figure S2. Overall survival time in patients with Profile 1a and Profile 1b. Kaplan-Meier curves for overall survival according to profile 1a and profile 1b.

![Kaplan-Meier curves for overall survival](image)

| Survival time (years) | Profile 1a | Profile 1b |
|-----------------------|------------|------------|
| 0                     | 67         | 10         |
| 1                     | 64         | 9          |
| 2                     | 54         | 8          |
| 3                     | 33         | 3          |
| 5                     | 11         | 1          |
| 7                     | 2          |            |
