Electronic Supplementary Material

Porous g-C$_3$N$_4$ covered MOF-derived nanocarbon materials for high-performance supercapacitors

Additional Fig.s and Results

**Fig. S1** Optical images of g-C3N4 and PMGCN nanocomposite.

**Fig. S2** SEM images of g-C$_3$N$_4$ at different magnifications.

**Fig. S3** SEM images of ZIF-8 at different magnifications.
Fig. S4 Fabrication process of electrode membrane.
