Adv. Sci. 2018, 5, 1700821
DOI: 10.1002/advs.201700821

When this article was published online, the chemical structure of hyaluronate was incorrect in Scheme 1 and the position at which the amino group in doxorubicin interacts with hyaluronate was incorrectly depicted as the hydroxyl group rather than the carboxyl group. The revised scheme is shown here:
