### Supplementary Table II Percentage of mosaicism frequency by groups

| Group                        | A     | B     | C     | Total       |
|------------------------------|-------|-------|-------|-------------|
| Mosaic euploid/aneuploid      | 327   | 279   | 222   | 828         |
| Chromosomes involved mosaic euploid/aneuploid events |       |       |       |             |
| Mosaic and aneuploid         | 479   | 515   | 424   | 1418        |
| Chromosomes involved mosaic and aneuploid events |       |       |       |             |
| Total                        | 806   | 794   | 646   | 2246        |
| Chromosome involved total mosaicism events |       |       |       |             |

| Group                        | A     | B     | C     | Total       |
|------------------------------|-------|-------|-------|-------------|
| Mosaic euploid/aneuploid rate | 14.6% | 12.4% | 9.9%  |             |
| (327/2246)                   |       |       |       |             |
| Mosaic and aneuploid rate    | 21.3% | 22.9% | 18.9% |             |
| (479/2246)                   |       |       |       |             |
| Total mosaicism rate         | 35.9% | 35.3% | 28.8% | 100%        |
| (806/2246)                   |       |       |       |             |
