CORRECTION

Correction: How Diverse Detrital Environments Influence Nutrient Stoichiometry between Males and Females of the Co-Occurring Container Mosquitoes *Aedes albopictus*, *Ae. aegypti*, and *Culex quinquefasciatus*

Donald A. Yee, Michael G. Kaufman, Nnaemeka F. Ezeakacha

Fig 2, “Mass (mean ± SE) for male and female (a) *Aedes aegypti*, (b) *Aedes albopictus* and (c) *Culex quinquefasciatus*, across detritus ratios (animal:leaf),” incorrectly displays as a duplicate of Fig 1. Please see the correct Fig 2 here.
Fig 2. Mass (mean ± SE) for male and female (a) Aedes aegypti, (b) Aedes albopictus and (c) Culex quinquefasciatus, across detritus ratios (animal:leaf). Detritus ratios are expressed in units, where one unit = 0.10 g.
