| Title                 | 1       | The diagnosis or intervention of primary focus followed by the words “case report”                                                                                                                                              |                                     |                               |
| Key Words             | 2       | 2 to 5 key words that identify diagnoses or interventions in this case report, including “case report”                                                                                                                      |                                     |                               |
| Abstract (no references) | 3a     | Introduction: What is unique about this case and what does it add to the scientific literature?                                                                                                                             |                                     |                               |
|                        | 3b     | Main symptoms and/or important clinical findings                                                                                                                                                                              |                                     |                               |
|                        | 3c     | The main diagnoses, therapeutic interventions, and outcomes                                                                                                                                                                     |                                     |                               |
|                        | 3d     | Conclusion—What is the main “take-away” lesson(s) from this case?                                                                                                                                                             |                                     |                               |
| Introduction           | 4       | One or two paragraphs summarizing why this case is unique *(may include references)*                                                                                                                                       |                                     |                               |
| Patient Information    | 5a     | De-identified patient specific information                                                                                                                                                                                      |                                     |                               |
|                        | 5b     | Primary concerns and symptoms of the patient                                                                                                                                                                                   |                                     |                               |
|                        | 5c     | Medical, family, and psycho-social history including relevant genetic information                                                                                                                                               |                                     |                               |
|                        | 5d     | Relevant past interventions with outcomes                                                                                                                                                                                      |                                     |                               |
| Clinical Findings      | 6       | Describe significant physical examination (PE) and important clinical findings                                                                                                                                               |                                     |                               |
| Timeline               | 7       | Historical and current information from this episode of care organized as a timeline                                                                                                                                         |                                     |                               |
| Diagnostic Assessment  | 8a     | Diagnostic testing (such as PE, laboratory testing, imaging, surveys).                                                                                                                                                       |                                     |                               |
|                        | 8b     | Diagnostic challenges (such as access to testing, financial, or cultural)                                                                                                                                                     |                                     |                               |
|                        | 8c     | Diagnosis (including other diagnoses considered)                                                                                                                                                                              |                                     |                               |
|                        | 8d     | Prognosis (such as staging in oncology) where applicable                                                                                                                                                                       |                                     |                               |
| Therapeutic Intervention| 9a     | Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care)                                                                                                                                       |                                     |                               |
|                        | 9b     | Administration of therapeutic intervention (such as dosage, strength, duration)                                                                                                                                               |                                     |                               |
|                        | 9c     | Changes in therapeutic intervention (with rationale)                                                                                                                                                                          |                                     |                               |
| Follow-up and Outcomes | 10a | Clinician and patient-assessed outcomes (if available) |
|------------------------|-----|------------------------------------------------------|
|                        | 10b | Important follow-up diagnostic and other test results |
|                        | 10c | Intervention adherence and tolerability (How was this assessed?) |
|                        | 10d | Adverse and unanticipated events |
| Discussion             | 11a | A scientific discussion of the strengths AND limitations associated with this case report |
|                        | 11b | Discussion of the relevant medical literature with references |
|                        | 11c | The scientific rationale for any conclusions (including assessment of possible causes) |
|                        | 11d | The primary “take-away” lessons of this case report (without references) in a one paragraph conclusion |
| Patient Perspective    | 12  | The patient should share their perspective in one to two paragraphs on the treatment(s) they received |
| Informed Consent       | 13  | Did the patient give informed consent? Please provide if requested | Yes | No |
