Supplementary Table 1. Distribution of tumor necrosis factor-α induced protein 8 (TNFAIP8) expression in clear cell renal cell carcinoma patients according to clinicopathological characteristics.

| Characteristics | TNFAIP8 | \( \chi^2 \) | P value |
|-----------------|---------|-------------|---------|
|                 | Positive | Negative |         |
| Gender          |          |            |         |
| Male            | 52       | 7          | 0.7753  | 0.3786  |
| Female          | 40       | 2          |         |
| Age             |          |            |         |
| \( \geq 64 \text{Y} \) | 51       | 3          | 0.8438  | 0.3583  |
| <64Y            | 41       | 6          |         |
| Grade           |          |            |         |
| Grade I         | 19       | 3          | 0.8937  | 0.6397  |
| Grade II        | 43       | 4          |         |
| Grade III       | 22       | 2          |         |
| Grade IV        | 8        | 0          |         |
