BMD (g/cm²) vs Age (Year) and T value

- Panel A: Lumbar spine with labeled vertebrae (L1 to L4)

- Panel B: Graph showing BMD (g/cm²) and T value for lumbar spine with age range from 20 to 100 years.

- Panel C: Pelvis with labeled regions (Left and Right)

- Panel D: Graph showing BMD (g/cm²) and T value for pelvis with age range from 20 to 100 years.
