Key words. techniques: radial velocities – techniques: high angular resolution – astrometry – brown dwarfs – binaries: close – errata, addenda

The distance $d$ was missing in the denominator of the first equation of Appendix D.2.

The corrected equation is:

$$X_*(t) = -X_c(t) \times \frac{M_c}{(M_c + M_*)d}$$

$$Y_*(t) = -Y_c(t) \times \frac{M_c}{(M_c + M_*)d}$$
