Erratum to: Monitoring cow comfort and rumen health indices in a cubicle-housed herd with an automatic milking system: a repeated measures approach

Arne Vanhoudt¹,²*, Steven van Winden², John C. Fishwick² and Nicholas J. Bell²

The original version of this article [1] unfortunately published with two mistakes. The PDF of the article was missing the last page. Furthermore there was a mistake in the data Table two of the original article. The corrected table is included here as Table 1. Both errors have been corrected in the original article.

Table 1 The number of repeated observations needed to achieve a stated margin of error for each of the indices, at their respective point of lowest coefficient of variation

| Index           | Mean (%) | Margin of error (%) | Number of repeated observations | 95 % confidence interval |
|-----------------|----------|---------------------|--------------------------------|--------------------------|
| Standing index  | 19.1     | 8.8                 | 1                              | 10.3 – 27.9              |
|                 | 2.5      | 8.8                 | 3                              | 14.1 – 24.1              |
|                 | 62.4     | 12.7                | 1                              | 49.7 – 75.1              |
|                 | 5        | 12.7                | 6                              | 57.4 – 67.4              |
| Rumination index| 2.5      | 9.4                 | 1                              | 53.0 – 71.8              |
|                 | 5        | 9.4                 | 4                              | 57.4 – 67.4              |
