CORRECTION
The number of sites included in the database is mistakenly reported in the abstract as over 100 when the correct number is 88 [1]. Similarly, the total number of beads is quoted in the abstract as almost 5000 when the correct number is 7852. The same errors occur in the methods section.

Table 2 in [1], including a summary of the site dataset, is missing fifteen rows. The correct table is published here.
This error was introduced during authors’ revisions but was overlooked at the time of proof-reading. The authors noticed it after publication.
