**Supplementary Table 2**: Primers used in VNTR polymorphism genotyping and sequencing

| Names            | Sequences (5’→3’)*                                      |
|------------------|----------------------------------------------------------|
| L-SIGN-forward   | 68731-CTTTTCTTTCTTGCCCAGTGT-68751                        |
| L-SIGN-reverse   | 69403-CTCAGGCAGGGTT GGTAACTC-69383                       |

*The numbers are based on the sequence of AC008812.7.*
