Supplementary Materials

Table S1. Histopathological Characteristics among Regional Health Authorities of Residence.

| Regional Health Authority of Residence | Ductal Carcinoma N (%) | Lobular Carcinoma N (%) | Other N (%) | Chi-Square (p-Value) |
|---------------------------------------|------------------------|-------------------------|------------|---------------------|
| Urban                                 | 1707 (77.4)            | 392 (17.8)              | 107 (4.9)  | 4.29 (0.82)         |
| Rural 1                               | 379 (74.2)             | 102 (20.0)              | 30 (5.9)   |                     |
| Rural 2                               | 304 (76.0)             | 77 (19.3)               | 19 (4.8)   | 4.29 (0.82)         |
| Rural 3                               | 345 (77.4)             | 78 (17.5)               | 23 (5.2)   |                     |
| Rural 4                               | 77 (81.1)              | 13 (13.7)               | <6 (5.3)   |                     |

Table S2. Histopathological Characteristics among Income Quintiles.

| Income Quintile | Ductal Carcinoma N (%) | Lobular Carcinoma N (%) | Other N (%) | Chi-Square (p-value) |
|-----------------|------------------------|-------------------------|------------|---------------------|
| Urban 1 (lowest)| 301 (75.1)             | 78 (19.5)               | 22 (5.5)   | 9.56 (0.94)         |
| U2              | 354 (77.5)             | 82 (17.9)               | 21 (4.6)   |                     |
| U3              | 385 (77.46)            | 81 (16.3)               | 31 (6.2)   |                     |
| U4              | 368 (76.8)             | 91 (19.0)               | 20 (4.2)   |                     |
| U5 (highest)    | 358 (76.5)             | 87 (18.6)               | 23 (4.9)   | 9.56 (0.94)         |
| Rural 1 (lowest)| 165 (77.5)             | 18.8 (18.8)             | 8 (3.8)    |                     |
| R2              | 196 (77.2)             | 42 (16.5)               | 16 (6.3)   |                     |
| R3              | 197 (75.8)             | 53 (20.4)               | 10 (3.9)   |                     |
| R4              | 189 (75.0)             | 46 (18.3)               | 17 (6.8)   |                     |
| R5 (highest)    | 217 (78.1)             | 49 (17.6)               | 12 (4.3)   |                     |
