Odds Ratios of Heterotaxia with Congenital Heart Defect by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Conotruncal Defects by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Double-outlet Right Ventricle by Maternal Dietary Component by Lower and Upper Quartile

Quartile groups ○ <25th percentile ● >75th percentile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Anomalous Pulmonary Venous Return by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Total Anomalous Pulmonary Venous Return by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Left Ventricular Outflow Tract Defects by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component
Odds Ratios of Coarctation of the Aorta by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Pulmonary Valve Stenosis by Maternal Dietary Component by Lower and Upper Quartile

Quartile groups

- 25th percentile
- >75th percentile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Ebstein Anomaly by Maternal Dietary Component by Lower and Upper Quartile

Quartile groups: ○ ≤25th percentile, ● >75th percentile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Tricuspid Atresia by Maternal Dietary Component by Lower and Upper Quartile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Any Septal Defect by Maternal Dietary Component by Lower and Upper Quartile

Quartile groups  • ≤20th percentile  • >70th percentile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Perimembranous/conoventricular VSD by Maternal Dietary Component by Lower and Upper Quartile

Quartile groups: ◆ <25th percentile, □ >75th percentile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
Odds Ratios of Pulmonary Valve Stenosis + ASD by Maternal Dietary Component by Lower and Upper Quartile

Quartile groups: ● <25th percentile; ● >75th percentile

Maternal Dietary Component

299x239mm (300 x 300 DPI)
