Outside activities

Visiting Academic in Supply Chain Optimization Technologies (SCOT), Amazon Inc. since Apr 2022.

Member of the Council of Advisors of the Platform Cooperativism Consortium (PCC) since Sep 2020.

Successfully proposed a new method for seat allocation in engineering colleges in India. Subsequently served as a member of the Technical committee, responsible for designing the mechanism and algorithm for joint seat allocation/admissions for over 30,000 seats at 88 centrally funded engineering colleges in India including the Indian Institutes of Technology, National Institutes of Technology etc. The mechanism was implemented successfully in summer 2015, and again, with further improvements suggested by me, in 2016, 2017, 2018 and 2019.

Regular conversations with data scientists at Airbnb, Upwork, Uber, Lyft, Ola, DiDi, Cubist, Fractal, and other companies. Seminar presentations (unpaid) to companies.

Research collaboration with Wayfair, Inc. (unpaid) from 2018-2020.
