Table S1. Predicting results and follow-up results of watch-and-wait patients.

| Watch-and-wait patients | cCR > 12 months\( (n = 27) \) | Regrowth in 12 months\( (n = 2) \) | Total\( (n = 29) \) |
|-------------------------|---------------------------------|-----------------------------------|-------------------|
| Predicting model determined cCR | 24 | 2 | 26 |
| Predicting model determined non-cCR | 3 | 0 | 3 |
