Editorial Status Report.
In 2022 there were 391 manuscripts under review; 342 of them were finally decided.
During the peer review process, submitted manuscripts go through one or more revision stages leading up to acceptance or rejection. Figure 1 summarizes the activity for the journal office between January 1st and December 31st of each year. The rejection rate for a year is calculated as the number of rejected manuscripts in this year compared to the total number of decisions in this year, which is defined here as the number of rejected manuscripts plus the number of accepted manuscripts.

Downloads in 2013–2022.
Downloads of full-text articles are a very good indicator of the interest of the scientific community in the papers of the journal and their content. This concerns in a positive way two aspects simultaneously: the relevance of the topics as well as the quality of the articles. As can be seen by Fig. 2, we had already about 60,000 downloads in 2013, in the first year after “Zeitschrift für Betriebswirtschaft” had been transformed into the “Journal of Business Economics”. In 2022, the downloads increased to over 326,300. Some of the illustrated growth in downloads over the years is due to the greater availability of articles via open access.
In addition, Table 1 gives an information about which articles, published in the years 2020–2022, were downloaded most frequently in the year 2022.

1 Best paper award 2022

By decision of the editors of the Journal of Business Economics the Best Paper Award 2022 is given to Florian Neitzert and Matthias Petras for their contribution “Corporate social responsibility and bank risk”, printed version in issue 3, April 2022. By
Recent progress in the development of the Journal of Business…

this the editors like to prize a qualitatively outstanding publication. The editors and the publisher cordially congratulate the authors on this award.

Florian Neitzert (M.Sc) was born on August 5, 1993 in Frankfurt am Main, Germany. After graduating from the University of Siegen with a bachelor and master’s degree in Business Administration, he started his research assistant and doctoral student at the Department of Bank Management at the University of Cologne for more than four years and plans to complete his doctoral thesis this year. Since spring 2023, Florian Neitzert has been working as a management consultant for b-k-p Consulting GmbH, based in Kronberg (Taunus). His research interests are in the field of banking and financial market regulation, European economic policy and international bank accounting. Furthermore, as chairman of the junior group of the Steuben-Schurz-Gesellschaft, he is committed to transatlantic relations and is a member of the Junge Wirtschaftsrat.

Dr. Matthias Petras was born on July 23, 1991 in Hamburg, Germany. He currently works as a management consultant for Sustainable Finance at the management consultancy firm zeb. He is also a lecturer at IU International University in Mainz. After studying business administration at the University of Hamburg and the Ecole de Management de Strasbourg, Mr. Petras earned his doctorate in banking regulation at the Department of Bank Management of Prof. Dr. Thomas Hartmann-Wendels at the University of Cologne. The topic of his dissertation was Post-Crisis Bank-

Recent progress in the development of the Journal of Business Economics has been significant, focusing on topics such as Regulation, Profitability, and Risk. His current research focuses on Sustainable Finance and Sustainable Banking.

2 Best reviewer award 2022

Connected with giving away the Best Reviewer Award the editors and the publisher would like to thank all reviewers for their support to provide for best quality publications in the Journal of Business Economics. As representative for all reviewers of the last year, Marcel Lichters from the Chemnitz University of Technology, head of the Chair of Marketing and Retailing in the Faculty of Economics and Business Administration in Chemnitz is given the Best Reviewer Award 2022. The editors and the publisher cordially congratulate him on this honor.

Marcel Lichters was born in 1983 in Wernigerode, Germany. He received a bachelor’s in business psychology and a master’s in business consulting. He has gained valuable industry experience while working for consultancies and market research institutes in Switzerland and Germany. For his experimental marketing research on consumer preference formation, he earned a Ph.D. from the Otto-von-Gericke-University in Magdeburg. Before starting his current position as the head of the Chair of Marketing and Retail at the Chemnitz University of Technology, he was working as a visiting professor for Market Research and Consumer Psychology at the Harz University of Applied Science as well as Asst. Prof. for Consumer Behavior at OVGU Magdeburg. His research interests mainly cover consumer preference construction phenomena, market research methods, and sensory marketing/product research.

3 Closing words

The Journal of Business Economics has experienced a remarkable development of the number of paper submissions and download figures since 2018. The editors and the publisher would like to conclude this editorial by expressing their warmest gratitude to all authors, readers, and reviewers of our journal who have made possible this success. We are looking forward to the years to come!
