| Abstract Topic | Abstract ID | Abstract Title | Presenter Name | Presenter Country | FINAL PRESENTATION FORM |
|---------------|-------------|----------------|----------------|------------------|-------------------------|
| Cervical cancer | 40 | innovaTV 301/ENGOT-cx12/GOG-3057: Tisotumab Vedotin vs Investigator’s Choice Chemo in Second- or Third-Line Recurrent or Metastatic Cervical Cancer | Vergote, Ignace B. | Belgium | ePoster |
| Cervical cancer | 57 | Alpelisib for recurrent PIK3CA-mutated recurrent cervical cancer | Bogani, Giorgio | Italy | ePoster |
| Cervical cancer | 66 | Radical trachelectomy, Experience in KaJOR. | Satanova, Alima | Kazakhstan | ePoster |
| Cervical cancer | 77 | Single institution outcomes for cervical cancer patients treated with palliative systemic anti cancer therapy | Cotronei, Chiara | United Kingdom | ePoster |
| Cervical cancer | 106 | Comparison of Locally Advanced Cervical Cancer Treatment Guidelines in Europe | Leary, Alexandra | France | ePoster |
| Cervical cancer | 108 | Clinical relevance of addition of conventional treatment to concurrent chemoradiotherapy in patients with FIGO stage III–IV cervical cancer | Kuros, Hiroyuki | Japan | ePoster |
| Cervical cancer | 114 | Lower-limb lymphedema after sentinel lymph node biopsy in cervical cancer patients | Poncová, Renata | Czech Republic | 3 minutes thesis |
| Cervical cancer | 116 | Evaluation of bintrafusp alfa, a bifunctional fusion protein targeting TGF-β and PD-L1, in cervical cancer: data from phase 1 and phase 2 studies | Strauss, Julius | United States | ePoster |
| Cervical cancer | 117 | Single institution outcomes for cervical cancer patients treated radically with EBRT using a phase 2 technique when HDR brachytherapy was not possible | Morgan, Jennifer | United Kingdom | ePoster |
| Cervical cancer | 129 | Survival outcomes of patients with T4/stage 4A cervical cancer: a 10 year real world data across 4 NHS trusts | Adeleke, Sola | United Kingdom | ePoster |
| Cervical cancer | 132 | Survival outcomes in cervical cancer: what factors affect recurrence? | Wang, Christine | Canada | ePoster |
| Cervical cancer | 143 | Drug repurposing as a source of innovative therapies in cervical cancer | Capistrano I., Rica | Belgium | ePoster |
| Cervical cancer | 148 | Outcomes of management of locally advanced cervical cancer, National Cancer Institute experience, Cairo University | Mohammed, Toka | Egypt | ePoster |
| Cervical cancer | 164 | Phase 3 recurrent/metastatic cervical carcinoma trial: subgroup efficacy analysis of cemiplimab versus individual investigator’s choice chemotherapy | Lorusso, Domenica | Italy | PAPER POSTER + ePoster |
| Cervical cancer | 171 | Dynamic dose fractionation of HDR-brachytherapy at preoperative irradiation of cervical cancer patients | SUKHIN, VLADYSLAV | Ukraine | ePoster |
| Cervical cancer | 199 | Randomised Phase II BGOG/ENGOT-cx1 study of paclitaxel-carboplatin with or without nintedanib in first-line recurrent or advanced cervical cancer | Vergote, Ignace B. | Belgium | REGULAR ORAL SESSION III: Cervical Cancer |
| Cervical cancer | 200 | Can Methylation Signals of Cervical Cancer Enhance Cervical Screening?: An epigenome-wide association study on the Illumina 850k array | Bowden, Sarah | United Kingdom | PAPER POSTER + ePoster |
| Cervical cancer | 218 | Worse Prognosis of Human Papillomavirus Negative Compared to Human Papillomavirus Positive Cervical Cancer | Kugelman, Nir | Israel | ePoster |
| Cervical cancer | 226 | Clearance of HPV after Conization of Cervical Cancer and Adenocarcinoma in Situ Correlates with Absence of Cancer | Kugelman, Nir | Israel | ePoster |
| Cervical cancer | 245 | The significance of surgical assessment in oncological outcomes after radical hysterectomy for early-stage cervical cancer. A multicenter study. | Fernandez-Gonzalez, Sergi | Spain | ePoster |
| Cervical cancer | 261 | ENGOT-cx11/GOG 3047(KEYNOTE-A18: phase 3 randomized study of pembrolizumab + chemoradiotherapy for high-risk locally advanced cervical cancer | Lorusso, Domenica | Italy | ePoster |
| Title                                                                 | Page | Authors                                    | Country       | Type                  |
|----------------------------------------------------------------------|------|--------------------------------------------|---------------|-----------------------|
| MRI based tumour radiomics in carcinoma cervix: a potential predictor of response to chemoradiation | 262  | Chopra, Supriya                            | India         | PAPER POSTER + ePoster|
| Socioeconomic Factors Associated with Prevalence and Staging of Cervical Cancer | 284  | theresa, maria gladys                      | Indonesia     | ePoster               |
| Indocyanine green to assess vascularity of ileal conduit anastomosis during pelvic exenteration for recurrent/persistent gynecological cancer. | 332  | Bizzarri, Nicolò                           | Italy         | ENYGO ORAL SESSION    |
| Dose-dense NACT followed by CCRT in locally advanced cervical cancer: feasibility and safety | 353  | Parpinel, Giulia                           | Italy         | ePoster               |
| The case of cervical cancer IB3 with mielotoxity after 2 cycle of chemotadiotherapy treated with radical hysterectomy as the last method of choice | 358  | Milnerowicz-Nabzdyf                       | Poland        | VIDEO CINEMA          |
| Undiagnosed invasive cervical cancer                                 | 385  | Amengual, Joana                            | Spain         | ePoster               |
| Serial bone density changes in women after pelvic chemoradiation for cervical cancer | 389  | Chopade, Pradnya                           | India         | ePoster               |
| Clinical evaluation of DNA methylation and HPV DNA testing in urine for cervical intraepithelial neoplasia and cervical cancer detection | 401  | van den Helder, Rianne                    | Netherlands   | ePoster               |
| Management of Pregnancy in a 27 Year Old Multigravida Woman with Cervical Cancer in Resource Limited Settings: a case report | 422  | Belivia Tripuspita, Viola                  | Indonesia     | ePoster               |
| Pattern of relapse in patients with stage IB1 cervical cancer after radical hysterectomy. MIS vs Open Approach. Systematic review and Meta-analysis. | 445  | Manzour, Nabil                             | Spain         | ePoster               |
| Stage Migration in Patients with Lymph Node Positive Cervical Cancer | 448  | Fahmy, Tanya                               | United Kingdom| ePoster               |
| Diagnostic performance of PET-TC in lymphatic staging vs surgical staging in patients with locally advanced cervix cancer | 452  | Rave Ramirez, Andres Fernando              | Spain         | ePoster               |
| Adjuvant therapy after radical hysterectomy for early cervical cancer. Are we harming our patients? | 472  | Boria, Felix                               | Spain         | PAPER POSTER + ePoster|
| Incidence of Lymph Node Metastasis in Cervical Carcinoma with ≤5 mm depth of invasion and >7 mm horizontal spread. | 476  | Nicolai, Laure                             | Netherlands   | 3 minutes thesis      |
| Effect on overall survival of adyuvant chemotherapy in locally advanced cervical cancer (LACC) | 479  | González García-Cano, Daniel              | Spain         | ePoster               |
| Validation of structural and process ESGO quality indicators for surgical treatment of cervical cancer in a large European cohort. | 488  | Boria, Felix                               | Spain         | ePoster               |
| Challenges in diagnosis of cervical adenocarcinoma in a patient with uterine malformation: a rare case report | 504  | Álvarez Sánchez, Sara                     | Spain         | ePoster               |
| Variables that predict nodal status of patients with early cervical cancer in the SUCCOR Cohort | 516  | Chiva, Luis M.                             | Spain         | ePoster               |
| Clinical Significance and Prognosis Value of Wnt Signaling Pathway in Cervical Cancer | 527  | Farazestarianian, Marjaneh                | Iran          | ePoster               |
| A variation of Laparoscopic Ovarian Transposition: The Ovarian Pedicle Suspension (IPS Technique) | 535  | Stanciu, Paul                             | United Kingdom| VIDEO CINEMA          |
| Bevacizumab in cervical cancer – the experience of a comprehensive cancer center in northern Portugal | 536  | Vaz-Ferreira, Ana                         | Portugal      | ePoster               |
| Title                                                                 | Abstract                                                                 | Authors                                      | Country          | Type      |
|----------------------------------------------------------------------|--------------------------------------------------------------------------|----------------------------------------------|------------------|-----------|
| Efficacy of checkpoint inhibitor immunotherapy drug pembrolizumab (KEYTRUDA) for treatment of advanced cervical cancer | Shah, Zunairah United States ePoster                                    |                               |                  |           |
| Cervical cancer after LACC trial…what do we do?                      | darin, cecilia Argentina VIDEO CINEMA                                     |                               |                  |           |
| Long term treatment outcome after Pelvic exenterations for recurrent gynaecological cancers | Rema, Prabhakaran Nair India ePoster                                     |                               |                  |           |
| Variables that modify the survival after recurrence in patients with early cervical cancer. | Manzour, Nabil Spain ePoster                                              |                               |                  |           |
| Transition from FIGO-2009 to FIGO-2018 in Women with Early-Stage Cervical Cancer; Does the Revised Staging Correctly Reflect Risk Groups? | Sponholtz, Sara Denmark PAPER POSTER + ePoster                           |                               |                  |           |
| Routine use of cytokeratin immunohistochemistry improves the detection of low volume disease in early-stage cervical cancer but is costly | Baelten, Ilse Netherlands PAPER POSTER + ePoster                          |                               |                  |           |
| Prognostic significance of HPV DNA presence in lymph nodes in cervical cancer patients – a long term follow-up | Slamn, Jiri Czech Republic ePoster                                        |                               |                  |           |
| Sentinel Lymph Node Mapping in Early-Stage Cervical Cancer – a National Prospective Multicentre Study (SENTIREC Trial) | Sponholtz, Sara Denmark REGULAR ORAL SESSION III: Cervical Cancer         |                               |                  |           |
| Vesicovaginal fistula repair in a case of cancer cervix: A Robotic assisted technique | Shylasree, TS India VIDEO SESSION 1: Pelvic and vulva reconstruction      |                               |                  |           |
