Supplementary Figure 1.  

A) Growth curve depicting OD$_{600}$ of the *M. abscessus* wild-type and ΔnucS cultures in Middlebrook 7H9 broth. 

B) Viability assay with the number of viable cells per mL (CFU/mL) of the *M. abscessus* wild-type and ΔnucS cultures plated in Middlebrook 7H10 agar.

**Supplementary Figure 1. Bacterial growth and viability.** A) Growth curve depicting OD$_{600}$ of the *M. abscessus* wild-type and ΔnucS cultures in Middlebrook 7H9 broth. B) Viability assay with the number of viable cells per mL (CFU/mL) of the *M. abscessus* wild-type and ΔnucS cultures plated in Middlebrook 7H10 agar.
