### Supplementary file 2. Charting table

| Description                                                                 |
|-----------------------------------------------------------------------------|
| **Article details**                                                         |
| Article type                                                                |
| Year of publication                                                         |
| Country                                                                     |
| Language                                                                    |
| Definition of rural/remote                                                  |
| **Study details**                                                           |
| Study design                                                                |
| Participants                                                                |
| Instrument/tools                                                            |
| Intervention                                                                |
| Comparator/control group                                                    |
| Study outcomes                                                              |
| Outcomes                                                                    |
| Power/significance of the study findings                                   |
| **Details of the program**                                                  |
| Name                                                                        |
| Setting                                                                     |
| Participants                                                                |
| Program delivery                                                            |
| Facilitators                                                                |
| Duration of the program/strategy |  |
|----------------------------------|--|
| Evaluation mechanism             |  |
| Timing of evaluation             |  |
| **Implementation factors**       |  |
| Success                          |  |
| Evidence of effectiveness        |  |
| Enablers                         |  |
| Recommendation                   |  |
