Figure S10. Prediction-corrected visual predictive check plots for final SUVr PK/PD model stratified by Core dosing regimen except for 10 mg/kg biweekly and Placebo

The pcVPC plots for Core placebo and 10 mg/kg biweekly are shown in Figure 3 in main text.
Figure S11. Prediction-corrected visual predictive check plots for final plasma Aβ42/40 ratio PK/PD model stratified by Core dosing regimen except for 10 mg/kg biweekly and Placebo

The pcVPC plots for Core placebo and 10 mg/kg biweekly are shown in Figure 3 in main text.
Figure S12. Prediction-corrected visual predictive check plots for final plasma p-tau181 PK/PD model stratified by Core dosing regimen except for 10 mg/kg biweekly and Placebo.

The pcVPC plots for Core placebo and 10 mg/kg biweekly are shown in Figure 3 in main text.
