Fig. S4

A

 Differences in Protein abundance - Untreated Day 10: PAT vs WT

Higher abundance in WT untreated Day 10
Higher abundance in PAT untreated Day 10

B

LogFC

C

Jak-STAT signaling pathway
PI3K-Akt signaling pathway
MAPK signaling pathway

D

Pathways in cancer
p53 signaling pathway
Cell cycle

E

Ferroptosis
NRF-1 signaling pathway

F

Apoptosis
Cellular senescence
Necroptosis

G

Neurotrophin signaling pathway
FoxO signaling pathway

H

TGF-beta signaling pathway
AMPK signaling pathway
EGFR tyrosine kinase inhibitor resistance
Signaling pathways regulating pluripotency of stem cells

I

TNF signaling pathway
IL-17 signaling pathway
NF-kappa B signaling pathway
