Preface

ICEMP is an annual research conference aims to provide a platform for the scientists, scholars, engineers and students from the Universities all around the world and the industry to present ongoing research activities. The past 7 ICEMP conferences were held in Bangalore (India), Colombo (Sri Lanka), Hong Kong, Kuala Lumpur (Malaysia), and Dubai (UAE), Cape Town (South Africa) and Prague (Czech Republic) respectively. The 8th International Conference on Engineering Mathematics and Physics (ICEMP 2019) was held in Ningbo, China on July 1-3, 2019.

From 38 papers submitted, 19 papers selected for publication of the conference proceedings. The topics include Mathematical Sciences and Physical Sciences. Each of the papers evaluated by the Technical Committee Members and international expertise reviewers based on the topic of each paper accepted these papers after rigorous peer-review.

Our keynote speakers delivered by renowned scholars who shared their new research perspectives with our conference attendees highlighted the conference program. The authors’ presentations were divided into 2 sessions with topics on Physical science and Mathematical science, respectively. The outstanding performance of the speakers made this conference truly spectacular.

We would like to express our sincere appreciation to Honorary Conference Chair, Conference Chairs, Program Chairs, Technical Committee Members, and international reviewers. Their excellent professional advice enabled us to prepare this high-quality program. Our special thanks go to our keynote speakers as well as all the authors for sharing their latest research results. We hope all the participants have had a wonderful time at the conference and enjoyed Ningbo, China. We truly believe that the participants have had fruitful discussions, and enjoyed the opportunity for future collaborations.

Conference General Chair

Prof. Haydar Akca

Abu Dhabi University, UAE
Statement of Peer Review

All papers published in this volume of Journal of Physics: Conference Series has been peer reviewed through processes administered by the proceedings Editors. Reviews were conducted by expert referees to the professional and scientific standards expected of a proceedings journal published by IOP Publishing.
