Advances in HER2-Positive Breast Cancer: Novel Therapies and Adverse Event Management

A continuing education activity for nurse practitioners, PAs, clinical nurse specialists, advanced degree nurses, oncology and hematology nurses, pharmacists, and physicians.

Harborside Medical Education

Harborside Medical Education (HSME), a division of Harborside, is committed to advancing care for people with cancer and improving patient outcomes through professional continuing education (CE) activities in oncology that address practice gaps and promote change in learners' knowledge, competence and performance in both community and academic practice settings.

Faculty
Reshma Mahtani, DO, Sylvester Comprehensive Cancer Center, Miami, Florida
Lisa Hineman, MS, AOCN®, PHN, ANP-C, Los Angeles Cancer Network, Los Angeles, California

Intended Audience
The activity's target audience will consist of nurse practitioners, physician assistants, clinical nurse specialists, advanced degree nurses, oncology and hematology nurses, pharmacists, and physicians.

Learning Objectives
After completing this educational activity, participants should be able to:
1. Discuss the clinical significance of existing and emerging data in HER2+ breast cancer
2. Develop a strategy to effectively manage diarrhea and other adverse events associated with treatments for HER2+ breast cancer
3. Implement best practices for the management of HER2+ breast cancer brain metastases

This certified activity is supported by an educational grant from Puma Biotechnology, Inc.
Continuing Education

Statement of Credit—Participants who successfully complete this activity (including the submission of the post-test and evaluation form) will receive a statement of credit.

Physicians. This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the Annenberg Center for Health Sciences at Eisenhower and the Journal of the Advanced Practitioner in Oncology.
