Follow-up examination

Date of examination

DIAGNOSIS

- [ ] Achondroplasia confirmed by molecular FGFR3 analysis (please fill in form Molecular genetic data)
- [ ] Hypochondroplasia
- [ ] Pseudoachondroplasia
- [ ] Skeletal dysplasia without genetic confirmation
- [ ] Other skeletal dysplasia – specify

Was the wrist X-Ray used to determine bone age?  [ ] YES  [ ] NO
If YES, were epiphysis closed?  [ ] YES  [ ] NO

CLINICAL DATA

Weight (kg)  Systolic blood pressure (mmHg)
Height (cm)  Diastolic blood pressure (mmHg)
Head circumference (cm)  Heartbeat frequency (beat per minute)

Specialized ambulant care

(Check the specialist checkbox if you have visited any of these specialists at least once since birth until this follow-up)

- [ ] General pediatrics  [ ] Orthopedics  [ ] Cardiology  [ ] Otorhinolaryngology  [ ] Neurology
- [ ] Ophthalmology  [ ] Rehabilitation  [ ] Endocrinology  [ ] Anthropometry
- [ ] Other specialized care – specify
**ORTHOPEDICS**

**Motor functions** – choose current status

- [ ] Non-walking child
- [ ] Reduced ability to walk with support
- [ ] Normal walking
- [ ] Wheelchair bound
- [ ] Reduced ability to walk without support

Independent walking start (months)

| Orthopedic diagnosis (established since birth until this follow-up) |
|---------------------------------------------------------------|
| Arthritis | YES | NO | Tibial bowing, lateral tibial torsion | YES | NO |
| Osteoporosis | YES | NO | Thoraco-lumbar kyphosis | YES | NO |
| Back pain | YES | NO | Spinal canal narrowing | YES | NO |
| Lower extremity radiculopathy | YES | NO | Hypotonia | YES | NO |
| Tibial malformity | none | mild | severe | Presence of gibbus | YES | NO |

Other motor limitations and abnormalities – specify

**Orthopedic therapy** (since birth until this follow-up)

- [ ] Orthopedic surgery

If YES, choose the surgery type

- Cervical spine surgery (spinal cord oppression)
- Lumbar spine surgery (endplate overload)
- Long bone prolongation
- Other orthopedic surgery – specify

Other orthopedic therapy – specify

Supervising clinical center / specialist

**HYPERTENSION AND SLEEP APNOEA**

**Cardiology examination**

- Hypertension
- Current antihypertensive medication

If YES, specify the medication

Start of medication use (month and year)

Supervising clinical center / specialist

- Current cardiac medication

If YES, specify the medication

Cardiac function by ultrasound (LVEF in %)
Sleep Apnoea

- Fatigue during the day: [ ] YES [ ] NO
- Subjectively suboptimal sleep: [ ] YES [ ] NO
- Snoring: [ ] YES [ ] NO
- History of sleep apnoea: [ ] YES [ ] NO
- Sleep study done: [ ] YES [ ] NO
- Date of sleep study: [ ]
- Diagnosed sleep apnoea: [ ] YES [ ] NO
- Sleep apnoea treatment: [ ] YES [ ] NO
- Respiratory insufficiency: [ ] none [ ] mild or occasional [ ] severe (ventilation support)
- Breathing parameter FEV1 (I) (breathing parameters are available for patients older than 6 years): [ ]
- Breathing parameter FVC (I): [ ]

OTORHINOLARYNGOLOGY

- At least once otitis media since birth until this follow-up: [ ] YES [ ] NO
- If YES, at least one of the following options is required:
  - Date of the first otitis media: [ ]
  - If the date is unknown, write age in months (estimate): [ ]
- No. of otitis media relapses (total): [ ]

NEUROLOGY

- Neurological status: [ ] Normal according to age [ ] Delayed
- Hydrocephalus: [ ] YES [ ] NO
- If YES, was the surgery performed in order to release brain overpressure?: [ ] YES [ ] NO
- Transcranial ultrasound examination: [ ] YES [ ] NO

OPHTHALMOLOGY

- Specify diagnosis and treatment: [ ]

REHABILITATION

- Rehabilitation techniques applied
  - Posture rehabilitation: [ ] YES [ ] NO
  - Contracture prevention: [ ] YES [ ] NO
  - Other – specify technique and frequency: [ ]
ENDOCRINOLOGY
Hormonal therapy (e.g. growth hormone) □ YES □ NO
If YES, specify

Other endocrinology follow-up
(e.g. thyroid disease monitoring) □ YES □ NO
If YES, specify

Supervising clinical center / specialist

BIOCHEMISTRY
Biochemical results □ YES □ NO
Date of blood sample collection

Na (mmol/l) Creatinine (mmol/l)
K (mmol/l) Erythrocytes (x 10^12/l)
Cl (mmol/l) Leukocytes (x 10^9/l)
Urea (mmol/l) Thrombocytes (x 10^9/l)

Other results (e.g. NT-proBNP level, B- and C-type natriuretic peptide) – write date of blood sample collection and values with units

OTHER REGISTRIES
Signed up for alternative registries □ YES □ NO
If YES, specify other registry

CLINICAL STUDIES
Patient involved in clinical study (except this clinical ReACH registry) □ YES □ NO
If YES, specify clinical study / treatment / medication

COMMENT
Please write down all important information
(e.g. other than orthopedic surgery, tonsillectomy, serious injury with permanent consequences)
