In this article, we found errors in the DALYs/100 000 of men and women in 18 regions. We therefore corrected Table 1 (only the revised data are presented). In addition, the main text from the eighth to the ninth line of the Results section should be amended as follows: “The DALY rate of cataracts among females was higher than that among males in all provinces except for Xinjiang.” Furthermore, a period should be added after the first “UVR” in the tenth line of the Abstract. The authors regret these errors.

Table 1. Daily ambient erythemal UVR and DALY rates of cataracts in 31 regions of China (sorted by DALYs/100 000 of all age groups) (corrected part only)
