Table of Contents

Volume 12   Number 7                                     July  2020

Using the United States Wind Turbine Database to Identify Increasing Turbine Size, Capacity and Other Development Trends

C. Walker......................................................................................................................................................407

Optimum Sizing and Economic Analysis of Standalone PV System with a Small Size Grinding Mill

L. A. Nguimdo, L. T. Tassi..........................................................................................................................432

Back Surface Recombination Velocity Dependent of Absorption Coefficient as Applied to Determine Base Optimum Thickness of an n⁺/p/p⁺ Silicon Solar Cell

M. Mint S. Dede, M. L. Ba, M. A. Ba, M. Ndiaye, S. Gueye, E. H. Sow, I. Diatta,
M. S. Diop, M. Wade, G. Sissoko...............................................................................................................445
Energy and Power Engineering (EPE)

Journal Information

SUBSCRIPTIONS

The *Energy and Power Engineering* (Online at Scientific Research Publishing, [https://www.scirp.org/](https://www.scirp.org/)) is published monthly by Scientific Research Publishing, Inc., USA.

Subscription rates:
Print: $89 per issue.
To subscribe, please contact Journals Subscriptions Department, E-mail: [sub@scirp.org](mailto:sub@scirp.org)

Energy and Power Engineering

ISSN 1949-243X (Print) ISSN 1947-3818 (Online)
https://www.scirp.org/journal/epe

Energy and Power Engineering (EPE), a monthly journal, publishes research and review articles in all important aspects of electric power engineering and other professionals involved in the electric power industry. Both experimental and theoretical papers are acceptable provided they report important findings, novel insights, or useful techniques in these areas.

Editor-in-Chief
Prof. Fernando A. Almeida Prado Jr University of Sao Paulo, USA

Associate Editors-in-Chief
Prof. Anjun Jin Ningbo University, China
Prof. Giulio Lorenzini University of Parma, Italy

Editorial Advisory Board
Prof. Ching-Chuen Chan The University of Hong Kong, China
Prof. Ryuichi Yokoyama Tokyo Metropolitan University, Japan
Prof. Xiaolin Zhou Chinese Society of Electrical Engineering, China

Subject Coverage
EPE aims to strengthen relations between the energy sector, research laboratories, and universities. Additionally, accepted ones will immediately appear online followed by printed in hard copy. The topics to be covered by Energy and Power Engineering include, but are not limited to:

- Analysis of Hybrid Generation Systems
- Artificial Intelligence in Complex Power and Energy Systems
- Bio-Energy
- Building Energy Use and Energy Conservation
- CO2 and Emission Issues
- CO2 Capture and Storage
- Conventional Energy Power Generation
- Design and Dimensioning of Power Systems
- Distributed Generation
- Energy and Energy Analyses
- Energy Policies and Strategies
- Energy Resources
- Energy Resources Assessment
- Energy Storage
- Energy Sustainability
- Gasification Processes and Technologies
- Heat Exchanger
- Hydrogen Energy and Fuel Cells
- Impact of Climate Changes on Energy Systems
- Integrating Renewable Energy to the Power Grid
- International Experiences with Energy Infrastructures
- Investment Planning for Energy Infrastructures
- Organic and Inorganic Photovoltaics
- Petroleum Engineering
- Planning and Operations of Power Systems
- Power Demand Forecasting and Management, Power Market
- Power Electronic Engineering
- Power Forecasting from Wind, Solar and Other Renewals
- Sources of Energy
- Power System Protection
- Power Transmission and Distribution
- Reliability Evaluation and Risk Analysis of Power Systems
- Renewable Energy Power Generation
- Smart Grid
- Socio-Economic and Power System Management
- Solar Energy Engineering
- Transmission and Capacity Planning
- Waste Energy Management
- Wind Energy Engineering

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the EPE.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

**What is SCIRP?**
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
