TABLE OF CONTENTS

BRIEF COMMUNICATIONS

Conversion of positive-pressure cardiac catheterization and electrophysiology laboratories to a novel 2-zone negative-pressure system during COVID-19 pandemic

Monica Truesdell, Paul Guttman, Barbara Clarke, Sheryl Wagner, Jim Bloom, Jeff DuShane, Linda Richardson, Kristen VanderElzen, Stanley Chetcuti, and Hakan Oral

1901

Continued.
# TABLE OF CONTENTS

Incidence and determinants of QT interval prolongation in COVID-19 patients treated with hydroxychloroquine and azithromycin
Ilir Maraj, James P. Hummel, Roy Taoutel, Romy Chamoun, Virginia Workman, Cindy Li, Lydia Tran, Alexander DelVecchio, Christopher Howes, and Joseph G. Akar .................................................... 1904

**ORIGINAL ARTICLES**

Inpatient hospital procedural volume and outcomes following catheter ablation of atrial fibrillation
Jim W. Cheung, Ilhwan Yeo, Edward P. Cheng, James E. Ip, George Thomas, Christopher F. Liu, Steven M. Markowitz, Luke K. Kim, and Bruce B. Lerman. ................................................................. 1908

EDITORIAL-INVITED—More data to motivate hospital volume standards for catheter ablation of atrial fibrillation
Kaustubha D. Patil and Hugh Calkins ............................................................... 1920

Cryoballoon pulmonary vein isolation in treating atrial fibrillation using different freeze protocols: The "ICE-T 4 minutes vs 3 minutes" propensity-matched study (Frankfurt ICE-T 4 vs. 3)
Shaojie Chen, Boris Schmidt, Stefano Bordignon, Shota Tohoku, Lukas Urbanek, Karin Plank, Franziska Willems, Christina Throm, Athanasios Konstantinou, Max Hilbert, Simone Zanchi, Lorenzo Bianchini, Fabrizio Bologna, Nikolas Tsianakas, Claudia Kreuzer, Takahiko Nagase, Laura Perrotta, Jana Last, and K. R. Julian Chun ............................................................. 1923

Phrenic nerve injury in atrial fibrillation ablation using balloon catheters: Incidence, characteristics, and clinical recovery course
Shota Tohoku, Shaojie Chen, Jana Last, Stefano Bordignon, Fabrizio Bologna, Luca Trolese, Simone Zanchi, Lorenzo Bianchini, Boris Schmidt, and K. R. Julian Chun ............................................................. 1932

Slow whole left atrial conduction velocity after pulmonary vein isolation predicts atrial fibrillation recurrence
Naoya Kurata, Masaharu Masuda, Takashi Kanda, Mitsutoshi Asai, Osamu Iida, Shin Okamoto, Takayuki Ishihara, Kiyonori Nanto, Takuya Tsujimura, Yasuhiro Matsuda, Yousuke Hata, and Toshiaki Mano ................................................................. 1942

EDITORIAL-INVITED—Atrial conduction velocity and risk of recurrent atrial fibrillation after ablation: Time to blank the blanking period?
Roy M. John and Raman Mitra ........................................................................ 1950

Conduction gap mapping of linear ablation lesions with high-density mapping
Kentaro Nakai, Asami Kashiwa, Akira Kunitomi, and Shunzo Matsuoka ................................................................. 1953

Visualization of the electrophysiologically defined junction between the superior vena cava and right atrium
Nobuhiro Nishiyama, Kenji Hashimoto, Terumasa Yamashita, Hiroshi Miyama, Taishi Fujisawa, Yoshinori Katsumata, Takehiro Kimura, Keiichi Fukuda, and Seiji Takatsuki ................................................................. 1964

Electrophysiology
Ripple map guided catheter ablation targeting abnormal atrial potentials during sinus rhythm for non-paroxysmal atrial fibrillation
Yosuke Nakatani, Yoshiaki Yamaguchi, Tamotsu Sakamoto, Yasushi Tsujino, and Koichiro Kinugawa ................................................................. 1970

Impact of risk-factor modification on arrhythmia recurrence among morbidly obese patients undergoing atrial fibrillation ablation
Eoin Donnellan, Oussama M. Wazni, Mohamed Kanj, Mohamed Elshazly, Ayman A. Hussein, Divyang R. Patel, Kevin Trulock, Bryan Wilner, Bryan Baranowski, Daniel J Cantillon, Niraj Varma, Wael Jaber, and Walid I. Saliba ................................................................. 1979

Continued.
# TABLE OF CONTENTS

**Cavotricuspid isthmus line in patients undergoing catheter ablation of atrial fibrillation with or without history of typical atrial flutter: A meta-analysis**  
Jorge Romero, Kavisha Patel, David Briceno, Dhanunjaya Lakkireddy, Mohamed Gabr,  
Juan C. Diaz, Isabella Alviz, Dalver Polanco, Domenico G. Della Rocca, Prasant Mohanty,  
Sanghamitra Mohanty, Chintan Trivedi, Andrea Natale, and Luigi Di Biase  
1987

**ORIGINAL ARTICLES**

Remaining activity of temporary interrupted direct oral anticoagulants and its impact on intra-ablation heparinization in patients with atrial fibrillation: Comparisons across four drugs and two dose regimens  
Akinori Sairaku, Yuko Onohara, Naoya Hironobe, Hiroya Matsumura, Yasuki Kihara, and Yukiko Nakano  
1996

Thrombus in the left atrial appendage in patients with atrial fibrillation treated with non-vitamin K antagonist oral anticoagulants in clinical practice—A multicenter registry  
Iwona Gorczyca, Anna Michalska, Magdalena Chrapek, Monika Budnik, Katarzyna Starzyk, Olga Jelonk, Beata Uziębo-Życzkowska, Agnieszka Kapton-Cieślicka, Monika Gawalko, Pawel Krzesiński, Agnieszka Jurek, Piotr Scisło, Janusz Kochanowski, Marek Kiliszek, Grzegorz Gierlerak, Krzysztof J. Filipiak, Grzegorz Opolski, and Beata Wozakowska-Kaplon  
2005

Quality of life improvements by durable pulmonary vein isolation in patients with atrial fibrillation  
Dai Inagaki, Seiji Fukamizu, Sayuri Tokioka, Iwanari Kawamura, Takeshi Kitamura, Rintaro Hojo, Harumizu Sakurada, and Masayasu Hiraoka  
2013

**Electrophysiology**

Endo-epicardial ablation vs endocardial ablation for the management of ventricular tachycardia in arrhythmogenic right ventricular cardiomyopathy: A systematic review and meta-analysis  
Jorge Romero, Kavisha Patel, David Briceno, Isabella Alviz, Mohamed Gabr, Juan Carlos Diaz, Chintan Trivedi, Sanghamitra Mohanty, Domenico Della Rocca, Amin Al-Ahmad, Ruike Yang, Saul Rios, Luis Cerna, Xianfeng Du, Nicola Tarantino, Xiao-Dong Zhang, Dhanunjaya Lakkireddy, Andrea Natale, and Luigi Di Biase  
2022

Association of scar distribution with epicardial electrograms and surface ventricular tachycardia QRS duration in nonischemic cardiomyopathy  
Jaeseok Park, Benoit Desjardins, Jackson J. Liang, Tarek Zghaib, Shuanglun Xie, Irene Lucena-Padros, Erica Zado, Pasquale Santangeli, David S. Frankel, David J. Callans, Rob J. van der Geest, Francis E. Marchlinski, and Saman Nazarian  
2032

**EDITORIAL-INVITED—The importance of electrical mapping of VT in the approaching era of clinical imaging**  
Paolo Della Bella and Antonio Frontera  
2041

Catheter ablation of orthodromic reciprocating tachycardia and atrioventricular nodal reentrant tachycardia in children with hypoplastic left heart syndrome  
Manish Malkar, Prince J. Kannankeril, Andrew E. Radbill, and Frank A. Fish  
2043

**ORIGINAL ARTICLES**

Transbaffle/transconduit puncture using a simple CARTO-guided approach without echocardiography in patients with congenital heart disease  
Mikael Laredo, Victor Waldmann, Gilles Soulat, Denis Amet, Eloi Marijon, Laurence Iserin, Magalie Ladouceur, and Alexandre Zhao  
2049

Continued.
TABLE OF CONTENTS

Devices
Coronary sinus and great cardiac vein electroanatomic mapping predicts the activation delay of the coronary sinus branches
Massimiliano Maines, Francesco Peruzza, Alessandro Zorzi, Paolo Moggio, Carlo Angheben, Domenico Catanzariti, Marco Coletti, Cesarino Pangrazzi, and Maurizio Del Greco 2061

The efficacy of left bundle branch area pacing compared with biventricular pacing in patients with heart failure: A matched case–control study
Yao Wang, Kai Gu, Zhiyong Qian, Xiaofeng Hou, Xing Chen, Yuanhao Qiu, Zeyu Jiang, Xinwei Zhang, Hongping Wu, Minglong Chen, and Jiangang Zou 2068

Proarrhythmic effect of automatic threshold testing algorithm in dual chamber devices
Timothy R. Larsen, Donna Sargent, Meredith Moyes, Jose F. Huizar, Alex Y. Tan, Kenneth A. Ellenbogen, and Karoly Kaszala 2078

Implantable cardioverter-defibrillator therapy to reduce sudden cardiac death in adults with congenital heart disease: A registry study
Thomas A. Slater, Blanche Cupido, Helen Parry, Michael Drozd, Michael E. Blackburn, Dominic Hares, Christopher B. Pepper, Linda Birkitt, Damien Cullington, Klaus K. Witte, James Oliver, Kate M. English, and Anshuman Sengupta 2086

ORIGINAL ARTICLES

Prognostic implications of nonsustained ventricular tachycardia morphology in high-risk patients with hypertrophic cardiomyopathy
Carmen Adduci, Francesca Boldini, Francesca Palano, Beatrice Musumeci, Carmine De Lucia, Domitilla Russo, Massimo Volpe, Camillo Autore, and Pietro Francia 2093

EDITORIAL-INVITED—Are all non-sustained ventricular tachycardia the same in hypertrophic cardiomyopathy risk stratification for sudden cardiac death?
Mohamad Khaled Sabeh and Marwan M. Refaat 2099

Hybrid transvenous lead extraction during cardiac surgery for valvular endocarditis
Yalin Yildirim, Johannes Petersen, Tobias Tönnis, Hermann Reichenspurner, and Simon Pecha 2101

Biophysical defects of an SCN5A V1667I mutation associated with epinephrine-induced marked QT prolongation
Tadashi Nakajima, Tommy Dharmawan, Reika Kawabata-Iwakawa, Shuntaro Tamura, Hiroshi Hasegawa, Takashi Kobari, Yoshiaki Kaneko, Masahiko Nishiyama, and Masahiko Kurabayashi 2107

EDITORIAL-INVITED—A cardiac sodium channel mutation associated with epinephrine-induced marked QT-prolongation
Mohamad N. El Moheb and Marwan M. Refaat 2116

SPECIAL SECTION
CAST-AF 2019

REVIEWS

Cardiac anatomy pertinent to the catheter and surgical treatment of atrial fibrillation
James L. Cox, Andrei Churyla, Olga N. Kislitsina, S. Chris Malaisrie, and Patrick M. McCarthy 2118

Cryoballoon ablation for pulmonary vein isolation
Jason G. Andrade 2128

Pulsed field ablation for pulmonary vein isolation in the treatment of atrial fibrillation
Christopher J. Bradley and David E. Haines 2136

Continued.
TABLE OF CONTENTS

Is pulmonary vein isolation enough for persistent atrial fibrillation?
Maria Terricabras and Atul Verma ................................................................. 2148

Non-pulmonary vein triggers in nonparoxysmal atrial fibrillation: Implications of pathophysiology for catheter ablation
Domenico G. Della Rocca, Nicola Tarantino, Chintan Trivedi, Sanghamitra Mohanty, Alisara Anannab, Anu S. Salwan, Carola Gianni, Mohamed Bassiouny, Amin Al-Ahmad, Jorge Romero, David F. Briceño, J. David Burkhardt, G. Joseph Gallinghouse, Rodney P. Horton, Luigi Di Biase, and Andrea Natale ................................................................. 2154

Catheter ablation is preferred over surgery for persistent atrial fibrillation
Alisara Anannab, Carola Gianni, Domenico G Della Rocca, Anu Sahore Salwan, Andrea Natale, and Amin Al-Ahmad ................................................................. 2168

Concomitant atrial fibrillation ablation in patients undergoing coronary artery bypass and cardiac valve surgery
Andrei Churyla, Anand Desai, Jane Kruse, James Cox, and Patrick McCarthy ................. 2172

Closure of the left atrial appendage using percutaneous transcatheter occlusion devices
Carola Gianni, Alisara Anannab, Anu Sahore Salwan, Domenico G. Della Rocca, Andrea Natale, and Rodney P. Horton ................................................................. 2179

ORIGINAL ARTICLES

Epicardial standalone left atrial appendage clipping for prevention of ischemic stroke in patients with atrial fibrillation contraindicated for oral anticoagulation
Stefano Branzoli, Massimiliano Marini, Fabrizio Guarracini, Carlo Pederzoli, Claudio Pomarolli, Giovanni D’Onghia, Maurizio Centonze, Mauro Fantini, Francesco Corsini, Roberto Bonmassari, Angelo Graffigna, and Mark La Meir ................................................................. 2187

COMPREHENSIVE REVIEWS

Systematic review and network meta-analysis of atrial fibrillation percutaneous catheter ablation technologies using randomized controlled trials
Kishore Kukendrarajah, Nikolaos Papageorgiou, Paul Jewell, Ross J. Hunter, Richard Ang, Richard Schilling, and Rui Providencia ................................................................. 2192

CASE REPORTS

Direction- and rate-dependent fractionation during atrial fibrillation persistence: Unmasking cardiac anisotropy?
Roeliene Starreveld and Natasja M. S. de Groot ................................................................. 2206

EDITORIAL-INVITED—Irregularly irregular—Nonuniform cardiac anisotropy as a substrate for atrial fibrillation
Anna Pfenniger ........................................................................................................... 2210

Thinking inside the box: Custom pacemaker improves device longevity in a congenital heart patient
Lisa Von Wald, Rachel Brucker, Stéphane Salerno, Andrew Ries, and Henri Roukoz ................. 2213

Caudocranial transseptal approach for placement of endocardial left ventricular leads
Mohamad C. Sinno, Thomas Carrigan, and J. Christian Hays ................................................................. 2216

Supraventricular bigeminy originating from the mitral annulus: What is the mechanism?
Masaaki Yokoyama, Seigo Yamashita, Michifumi Tokuda, Saagor Mahida, Michihiro Yoshimura, and Teiichi Yamane .............................................................................. 2222

Continued.
TABLE OF CONTENTS

EP ROUNDS

“Atrial fibrillation and premature ventricular complexes”: Is there a unifying diagnosis?
Luis Quininir, Emily Hodkinson, Kim H. Chan, and Raymond W. Sy ................................. 2226

One atrial pacing, three responses: What is the mechanism?
Esteban González-Torrecilla, Nina Soto Flores, and Pablo Ávila Alonso ......................... 2230

Irregular narrow QRS complex tachycardia with intermittent atrioventricular dissociation: What is the mechanism?
Atsushi Doi, Naoko Miyazaki, Tomohiko Goda, Haruya Yamane, Kei Tanaka, Ryo Araki, Fumi Sato, and Takayuki Yamada ................................................................. 2234

Intermittent bifascicular block in a young athlete: A novel variant of ventricular preexcitation? 
Hussam Ali, Sara Foresti, Gabriele Egidy Assenza, Pierpaolo Lupo, Guido De Ambroggi, and Riccardo Cappato .......................................................... 2238

Unusual response to overdrive pacing during a postinfarction ventricular tachycardia: What is the mechanism?
Taihei Itoh, Masaomi Kimura, Shogo Hamaura, Kimitaka Nishizaki, Yuji Ishida, Noriyoshi Kaname, and Hirofumi Tomita .............................................................. 2243

Interesting narrow complex tachycardia with regularly irregular RR intervals with more ventricular than atrial electrograms: What is the mechanism?
Debabrata Bera, Narasimhan Calambur, Suchit Majumder, and Sanjeev S Mukherjee ........ 2246

DEVICE ROUNDS

Increasing atrial fibrillation: What is the cause?
Carola Gianni, Domenico G. Della Rocca, Jun Kim, Anu Sahore Salwan, Andrea Natale, and Amin Al-Ahmad ................................................................. 2253

LETTER TO THE EDITOR

An alternative way to reach the ventricular surface of the sinuses of valsalva: Antegrade transseptal approach
Serkan Cay, Ozcan Ozeke, Firat Ozcan, Serkan Topaloglu, and Dursun Aras ........................ 2257

RESPONSE TO LETTER TO EDITOR

Response to: An alternative way to reach the ventricular surface of the sinuses of valsalva: Antegrade transseptal approach
Suraj Kapa .......................................................... 2260

LETTER TO THE EDITOR

Meta-analyses for oral anticoagulants and left atrial appendage thrombus resolution in nonvalvular atrial fibrillation: Piecing the puzzle together
Aliza Hussain and Norman C. Wang ............................................................. 2261

RESPONSE TO LETTER TO EDITOR

Response to the Editor: Warfarin versus non-vitamin K oral anticoagulants for left atrial appendage thrombus: A meta-analysis
Ghulam Murtaza, Mohit K. Turagam, Jalaj Garg, Poonam Velagapudi, Varunsi A, and Dhanunjaya Lakkireddy .......................................................... 2263

LETTER TO THE EDITOR

Overcoming difficulties related with persistent left superior vena cava
Serkan Cay, Ozcan Ozeke, Firat Ozcan, Serkan Topaloglu, and Dursun Aras ...................... 2264

Continued.
TABLE OF CONTENTS

RESPONSE TO LETTER TO EDITOR

Reply to letter to the editor: "Overcoming difficulties with persistent left superior vena cava"
Mikhael F. El-Chami .......................................................... 2266

LETTER TO THE EDITOR

The other side of the circulation: The arterial system
Serkan Cay, Ozcan Ozeeke, Firat Ozcan, Serkan Topaloglu, and Dursun Aras ......................... 2267

CORRIGENDUM

Corrigendum
Gabriele D’Ambrosio, Silvio Romano, Obaida Alothman, Markus Frommhold, Georgi Borisov,
Giuseppe Patti, Mohammad El Garhy, Karam Issa, Maria Penco, Santi Raffa,
