**Supplementary Table 1.** Most common 10 SMDGs and the number of diagnosis record during 2 years

| Most common SMDGs                | No. of diagnosis |
|----------------------------------|------------------|
| 1. Acute bronchitis              | 1,872,555        |
| 2. Hypertension                  | 1,442,614        |
| 3. Allergic rhinitis             | 562,278          |
| 4. Diabetes mellitus             | 510,263          |
| 5. Acute tonsillitis             | 505,909          |
| 6. Upper respiratory infection   | 482,518          |
| 7. Acute sinusitis               | 425,339          |
| 8. Acute pharyngitis             | 381,685          |
| 9. Allergic contact dermatitis   | 367,608          |
| 10. Gastritis                    | 359,601          |

SMDGs, simple or minor disease groups.
