\textsuperscript{1}Entomology Division, Museo Argentino de Ciencias Naturales. e-mail: bachmann\textregistered bg.fcen.uba.ar.
\textsuperscript{2}Entomology Division, Museo de La Plata. e-mail: ncabrera\textregistered museo.fcnym.unlp.edu.ar

Abstract: The type specimens (all current categories) of Chrysomelidae s.l. deposited in this Museum are listed; 125 names are recorded, 85 of them (68 percent) are represented here by name-bearing types (‘primary’ types), five of them dubious. The family is taken in its broadest sense, including the Bruchinae, Hispinae (along with the former Cassidinae), and other groups sometimes considered as separate families. The specific and subspecific names were alphabetically filed, followed by the generic ones as they were spelled in the original publication, or the generic and specific names in the case of subspecies and varieties. Later combinations and/or current binomina are mentioned insofar as these are known to the authors. Two lists are added: 1. of specimens labelled as types of unavailable names, chiefly those not found in the literature, and supposedly not published, and 2. of specimens labelled as types, but not originally included as such, and published or not after the original description.

Key words: Chrysomelidae, Coleoptera, type specimens, Argentina.

Resumen: Catálogo de los tipos de Chrysomelidae sensu lato (Insecta, Coleoptera, Polyphaga) depositados en el Museo Argentino de Ciencias Naturales, Buenos Aires. Se catalogan los ejemplares típicos, de todas las categorías aceptadas, de Chrysomelidae s.l. conservados en este museo; se registran 125 nombres, 85 de ellos (68 por ciento) representados aquí por tipos portadores de nombres (tipos ‘primarios’), cinco de ellos dudosos. La familia se toma en su concepto más amplio, incluyendo a las Bruchinae, las Hispinae (con las anteriores Cassidinae) y otros grupos a veces considerados como familias separadas. Los nombres específicos y subespecíficos fueron ordenados alfabéticamente; a estos siguen los de los géneros, así como se publicaron originalmente, o de los géneros y especies en el caso de las subespecies y variedades. Se mencionan las combinaciones ulteriores y/o los binomios en uso, hasta donde son conocidos por los autores. Se agregan dos listas: 1. de los ejemplares rotulados como tipos, de nombres no disponibles, principalmente aquellos no hallados en la bibliografía, y supuestamente no publicados, y 2. de los ejemplares rotulados como tipos, pero no incluidos originalmente como tales, publicados o no después de la descripción original.

Palabras clave: Chrysomelidae, ejemplares tipo, Argentina.

INTRODUCTION

A catalog of the typical specimens (all current categories) of species of Chrysomelidae s.l. housed in the Entomological Division of this Museum is presented, referred to 125 names: 25 holotypes (four of them dubious, they may be syntypes), 95 syntypes (six of them dubious) of 55 names, 179 paratypes (which include 6 allotypes). Of these 125 names, 85 of them (68 percent) are here represented by name-bearing types (’primary types’). The family is here taken in its broadest sense, including the Bruchinae, the Hispinae (with the former Cassidinae) and other groups sometimes considered as separate families. The classification of Lawrence & Newton (1995) is here followed.

Specific and subspecific names are alphabetically entered, as is usual in type specimen catalogs; each name is followed by the generic one, and the subgeneric one if it was mentioned, spelled as it was in the original binomen, or by the generic and specific ones in the case of subspecies and varieties. An abbreviated bibliographic citation follows, as well as a listing of the types, if these were mentioned, starting with those deposited in this Museum. An account of the type specimens actually here housed follows, with their label data. According to the International Code of Zoological Nomenclature (4\textsuperscript{th} edition, 1999), allotypes are not ‘name-bearing types’. If the country is not mentioned, Argentina is meant; in every other case, the country is mentioned first. Some specimens bear a registration number, entered in the Entomology Division register; numbers under 10000 correspond to the old general register of the Museum. Later nomenclatural or taxonomical changes are added, insofar as these are known to the authors.

For the identification of types not formally designated in the original publication (art. 72.4 of the Code), evidences from the labels as they were writ-
ten in the collections examined by authors of names, are considered. When the authors did not formally designate a holotype, or its equivalent, and did not mention how many specimens were examined, it is assumed that they had a series of syntypes (recommendation 73 F of the Code), eventually ‘sole syntypes’.

Some specimens in the collection are labelled as types of names not found in the literature, and assumed not to have been published. These names are probably not available in the sense of the Code; however, in order to assist in future research, they are separately listed.

Specimens labelled as types, but not included in the original publication, and specimens designated as types after the original publication date, published or not, cannot be accepted as included in the type series; however, also in order to assist in future research, they are included in a third list.

Burmeister did not label his types nor other specimens, save sometimes with locality labels; he put, to the left of the specimens or series, a handwritten identification label, fastened with pins to the bottom of the drawer, and added sometimes a vague distribution indication, e.g. «Patagonia» or even «Argentina». The type condition is inferred from the publications, and one of us (AOB) added labels, handwritten on red cardboard, to the specimens deemed to be holotypes or syntypes.

Bréthes often marked his type specimens with a small square piece of red paper, making their identification in the drawers easier.

Bruch used to copy the specific names of the types on his own labels, most of them with a red frame (a few with a green frame), and to add to the same pin a small, folded piece of paper with the name handwritten by the respective author, seemingly cut from a letter; frequently only a part of the generic name, and/or a part of the author’s name are legible.

Some specimens in the Bruch collection are labelled as ‘cotypes’. If the author did not state how many specimens he had examined, they must be considered as syntypes. We suspect that some of the ‘cotypes’ in our Museum were not even included in the typical series, but it is not possible to assure their condition. In order to assist in future research, we include them in the present paper as syntypes or as paratypes, according to each context (Bruch used the term ‘Cotypus’ sometimes in the sense of syntypus and sometimes in the sense of paratypus).

Lastly, one name (Probaenia crenata ab. interrupta Monrós & Viana 1947: 273, pl. xxii: 91) although not an available name, is included within this list because of the same reason.

No type specimens were found of 1. *Magalostomis* (Scaphigenia) bubalus bubaloides Monrós (1954: 99-102), of which some paratypes are said to be in MACN, BRC and GPC; 2. *Uroplata oglobini* (sic) Monrós & Viana (1947: 288-289), of which some ‘cotypes’ are said to be in MACN; 3. *Stereoma laevicollis orophila* Monrós (1954: 224-225), of which some paratypes are said to be in MACN and BRC; 4. *Megalopus schaeferi* Monrós (1947c: 211-212), of which one paratype is said to be in MACN ex ABC.

Unless otherwise stated, the specimens are glued to cards held by an entomological pin.

This Museum is identified by MACN. Repositories of other types are identified as follows: ABC, Adolfo Breyer coll., in MACN; AMC, A. Martínez coll., types now in MACN; APC, A. Prosen coll.; BC, G. Bondar coll.; BEC, C. Berg coll., in MACN; BM, The Natural History Museum, London; BRC, C. Bruch coll., in MACN; CM, Carnegie Museum; CMSM, Colegio Máximo, San Miguel, B. Aires, later Inesalt, now in Salta National University; CSC, Campos Seabra coll., Brasil; DC, Diringshofen coll.; DEI, Deutsches Entomologisches Institut, Berlin-Eberswalde; DZSP, Dept. Zoología, São Paulo, Brasil; EEA T, Estación Experimental Agropecuaria, Tucumán, Argentina; ERJ, Instituto Experimental Agrícola, Rio de Janeiro, Brasil; FIML, Fundación e Instituto Miguel Lillo, Tucumán, Argentina; FMNH, Field Museum of Natural History, Chicago, U.S.A.; GKC, G. Kuschel coll.; GM, Genf Museum, Suisse; GPC, G. Pellerano coll., in MACN; HB, H. Burmeister coll., in MACN; IIE, Imperial Institute of Entomology, London, U.K.; JBC, J. Bosq coll.; JBR, J. Bréthes coll., in MACN; JDC, J. Daguerre coll.; MAC, M. Alvarenga coll., Brasil; MC, F. Monrós coll.; MCSN, Museo Civico di Scienze Naturale, Genova, Italia; MF, Museum Frey, Tützing, Germany; now in NHMB; MG, Museu Goeldi, Manaus, Brasil; MLP, Museo de La Plata, La Plata, Argentina; MNH, Museum National Hungaricus, Budapest, Hungary; MNHN, Museum National d’Histoire Naturelle, Paris, France; MP, Museum Pragae, Czech Rep.; MPA, Museu Paraense; MRB, Musée Royal d’Histoire Naturelle de Belgique, Bruxelles, Belgique; MVC, M. Viana coll., sold to Mr. J.E. Barriga, Santiago, Chile; MZSP, Museu de Zoologia, São Paulo, Brasil; NHMB, Natural History Museum, Baden, Suisse; NHMW, Naturhistorisches Museum Wien, Austria; PC, M. Pic coll., now in MNHN; RCC, R. Carcarvallo coll.; SC, F. Spaeth coll.; SCT, Seminario Conciliar de Tucumán, Argentina; SKM, Svenska Konigliik Naturhistoriska Museum, Stockholm, Sweden; USNM, United States National Museum, Washington, U.S.A.; WBC, W. Bokermann coll., Brasil; ZMB, Zoologisches Museum, Berlin, Germany.

Abbreviations used: ab., aberratio; allot., allotypus (alotipo); coll., collection; cot., cotypus
(cotyp., cotipo); f., figure; handwr., handwritten; holot., holotype (holotipo); leg., legiti (legint); p., page; parat., paratype (paratypo, paratipo); print., printed; spec., specimen (specimens); synt., syntype (syntypi, sintipo).

CATALOG OF THE TYPES

achalay [Chlamisus]. Monrós 1952b: 592-594, f. 87, 136. La Rioja Prov.: Nonogasta, leg. M. Gómez, one parat. ex BRC. Holot. male, Salta Prov.: Coronel Moldes in MC, one parat. in USNM.

One parat. «Nonogasta / Rioja / Gómez» handwr. by Bruch, red frame; «Cotypus» print. on pale green paper; «Hybosa / Misiones / XI.1909 / C. Bruch» print., date handwr. on pink paper. Ex BRC.

acuminatus [Cryptocephalus]. Jacoby 1908: 838. Tucumán; in addition one spec. in MLP.

One synt. «Rep. Argentina / Prov. Tucumán / 15.VII.1900 / C. Bruch» print. on pale green paper; «Cryptocephalus / acuminatus / Jac.» handwr. by Bruch, red frame. Ex BRC.

acutangula [Hybosa]. Spaeth 1913: 163-164. Abundant in Paraguay; Brasil: Espiritu Santo, and «Hybosa / acutangula / Spth.» handwr. by Bruch, red frame; «Cotypus» print. on pale green paper; «Chlamisus / achalay / mihi [handwr.] / F. Monróes det. 1949 [print.]» on pink paper. Ex BRC.

argentina [sub Argentina] [Coscinoptera]. Burmeister 1877: 60-61. Entre Ríos Prov.: Paraná, and southern Corrientes Prov.

Two synt., pinned, one of them «Parana / Febr.» print. on dark green paper, the other without labels. One of us (AOB) added «Monachus / argentina / Burmeister 1877 / Syntypus» handwr. on red cardboard. Ex HB.

Note: Moldenke (1981: 96) proposed the new subgenus Coleorozena, assigning Coscinoptera argentina as the type species.

argentinensis [Mastostethus]. Jacoby 1904a: 65-66. Tucumán, two spec.

Two synt., pinned «Rep. Argentina / Prov. Tucumán / XII.1897 / C. Bruch» print., date handwr.; «Typos» print. on pale green paper;
«Mastostethus / argentinensis / Jac. / Co-tipo» handwr. by Bruch, red frame. Ex BRC.

argentinensis [Metallactus]. Jacoby 1908: 850-851. Córdoba. Seemingly a single spec., as only one measure was given.

Holot?, synt.? «Rep. Argentina / Prov. Córdoba / 190_ / C. Bruch» print.; «Cotypus» print. on pale green paper; «Metallactus / argentinensis / Jac.» handwr. by Bruch, red frame. Ex BRC.

Note: The ‘Cotypus’ label suggests that Jacoby examined more than one spec.

argentinus [Cryptocephalus]. Jacoby 1908: 844. Buenos Aires, received from MLP.

One synt., «Rep. Argentina / Prov. Buenos Aires / 27.XI.1904 / C. Bruch» print., date handwr.; «Cryptocephalus / argentinus / Jac.» handwr. by Bruch, red frame. Ex BRC.

atra [Octhispa]. Weise 1922: 32. Prov. Buenos Aires, ex BRC.

Holot. «Typus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 190_ / C. Bruch» print.; «Dibujado» [drawn] handwr.; «51056» handwr., red frame; «Octhis / atra / Ws.» handwr. by Bruch, red frame; «Octhis / atra / handwr., cut; «Nanocthispa / atra (Weise) / Det. M. Viana» handwr. / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard. Ex BRC.

Note: Recorded as Nanocthispa atra by Monró & Viana (1947: 313, pl. xxvi: 116), who state to have examined more than one spec.

atricornis [Probaenia]. Pic 1927: 9. Argentina, in BRC and PC.

Two synt. on cards, on one pin, «Typus» handwr. on pale green paper; «Alta Gracia. La Granja / Sierras de Córdoba / 16.II.927. C. Bruch leg.» print., date handwr.; «51026» handwr., red frame; «Col. / C. Bruch» print.; «Probaenia / atriicornis / Pic» handwr. by Bruch, red frame; «Probaenia / atriicornis» handwr. / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard. Ex BRC.

Notes: Transferred to Uroplata by Uhmann (1937a: 457). A synonym of Uroplata (Cardiohispa) jucunda Chapuis 1877, after Monró & Viana (1947: 295-296, pl. xxv: 107). Descarpentries & Villiers (1959: 150) state that they examined the ‘holotype’ in the Pic collection, and that it comes from Córdoba Prov.

basalis [Araeostenus]. Brèthes 1922: 286-287. [Paraná River Delta]: Islas del Tigre 26.II.1911.

Holot., «Tuyuparé / 26.II.11 / J.B.» handwr. by Brèthes, black frame; «Araeostenus / basalis / Brèthes», «type!» handwr. by Brèthes; a small square piece of red paper. One of us (AOB) added «Holotypus» printed on red cardboard. Ex JBR.

bicoloriceps [Anisostena]. Pic 1928a: 51-52. Corrientes Prov.: San Roque, leg. Bosq, in BRC and JBC.

One synt. «Corrientes / I.1921. De Carlo» handwr. by Bruch; «Col. / C. Bruch» print.; «50940» handwr., red frame; «Typus» print. on red cardboard; «Anisostena / bicoloriceps / Pic» handwr. by Bruch, red frame; «Anisostena / bicoloriceps» handwr., cut; «Anisostena / (Neostena) / bicoloriceps / Pic / Det. M. Viana» handwr. / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard. Ex BRC.

Notes: The collector’s name differs, but otherwise the labels seem authentic. Included in subgenus Anisostena (Neostena) by Monró & Viana (1947: 204-206), who consider Charistena elongaticeps Pic 1928 as a synonym. Descarpentries & Villiers (1959) state no type is in PC.

bisignata [Mecistomela (Coraliomela) vicina var.]. Berg 1900: 256. Bolivia, in MACN.

Holot., pinned «Bolivia / S. Mart.» handwr. on green paper, reverse white; «Col. / Antigua» print. on pale yellowish paper; «51105» handwr., red frame; «Typus» print. on red paper; «var. bisignata Berg», «vicina (Guér.)», handwr. by Berg on yellowish paper.

Notes: Currently included in Coraliomela. This variety was not dealt with by Monró & Viana (1947).

bivitticollis [Cryptocephalus]. Jacoby 1908: 838-839. Argentina, perhaps a single spec., as only one measure is given.

Holot.?, synt.? «Rep. Argentina / Prov. Buenos Aires / I.1895 / C. Bruch» printed, date handwr.; «Cotypus» print. on pale green paper; «Cryptocephalus / bivitticollis / Jac.» handwr. by Bruch, red frame. Ex BRC.

Notes: The ‘Cotypus’ label suggests that Jacoby could have seen more than one spec.

brittocostai [Chlamisus]. Bokermann 1962a: 277. 3 ♀. (1018-1020), 1 ♀ (1021), without other data.

Three parat. «Coleção Bokermann», print. on red paper; «George Oeterer / São Paulo - Brasil / 23.X-1961 / Werner col.», print., date handwr.; «Chlamisus / brittocostai / Paratipo ♀ [on two], [♂
on the other] [handwr.] / Bokermann det. 1962 [print.] on red paper; «1019» [«1020», «1021»], typed, the last one ex AMC.

brochoni [Plecoptonyx]. Brèthes 1925: 15-16. Santa Fe, Brochon leg.

**Holot.** «S» Fe / L. Brochon» handwr.; «Repréparo / M. Viana / I-1960» handwr.; «2531» handwr.; «Plecoptonyx / Brochon / Brèthes» handwr. by Brèthes. One of us (AOB) added «Typus» printed on pink cardboard. Ex JBR.

*Note:* Monrós (1947b: 47, 53, 62-63, f. 9] states having examined the holot. and several parat. from the same locality, from JBR.

bruchi [Cephalodonta]. Weise 1904: 443. Buenos Aires Prov. 10.V1897, several spec. ex BRC.

One **synt.** «Rep. Argentina / Prov. Buenos Aires / 10.V1897 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «50927» handwr., red frame; «Typus» print. on red paper; «Cephalodonta / Bruchi / Weise» [sic] handwr. by Bruch, red frame; «Sceletonopla / Pseudispa» [sic] bruchi Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] X-1947 [handwr.] [reverse] on white cardboard with a black frame. Ex JBR.

*Note:* Monrós & Viana (1947: 189-190, pl. iii: 13) examined the «type series» in MACN, and transferred the species to *Sceletonopla* (Pseudispa) [sic, pro *Pseudispa*]. They put another spec. in BRC, taken after the publication date, and not labelled as a type.

bruchi [Stethispa]. Weise 1906: 224. Misiones Prov. V1895.

**Holot.**, «Rep. Argentina / Gob. Misiones / 5.1895 / C. Bruch» print., date handwr.; «Col. / C. Bruch» printed; «Typus» print. on red paper; «Stethispa / Bruchi / Weise» [tipo] handwr. by Bruch, red frame; «Stethispa / Bruchi m.» handwr., cut; «Stethispa / bruchi Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse] on white cardboard with a black frame. Ex BRC.

*Note:* Monrós & Viana (1947: 189-190, pl. iii: 13) examined the «type series» in MACN, and transferred the species to *Sceletonopla* (Pseudispa) [sic, pro *Pseudispa*]. They put another spec. in BRC, taken after the publication date, and not labelled as a type.

bruchii [Rhinotmetus]. Bowditch 1915: 490. Buenos Aires Prov., several spec. ex BRC; ex 2d coll. Jacoby sub 28c.

One **synt.** «Rep. Argentina / Prov. Buenos Aires / IV1896 [?] / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Rhinotmetus / Bruchii / Bowd.» handwr. by Bruch, red frame; «Rhinotmetus / Bruchii / nov. spec. Bow.» handwr., cut. Ex BRC.

carbonarius [Cryptocephalus]. Burmeister 1877: 64-65. Buenos Aires.

Two **synt.** one of them « Buen / Ayres» print. on green paper, the other without labels. One of us (AOB) added to both «Cryptocephalus / carbonarius / Burmeister 1877 / Synotypus» handwr. on red cardboard. Ex HB.

carinipennis [Exema]. Monrós 1952b: 653-655, f. 160, 165, 169. Corrientes Prov.: Santo Tomé leg. G. Pellerano, 1 **parat.** in MACN. **Holot.** Brasil: São Paulo: Morumbí, leg. Nick, in FIML, several **parat.** in MP, MG, MC, MVC.

One **parat.** «S. Tomé / Corrientes / 10-923» print., date handwr., black frame; «53397» handwr., red frame; «Paratypus» print. on yellow cardboard; «Exema / carinipennis / mihi [handwr.] / E Monrós det. 1950 [print.]» on pink paper. Ex GPC.

*Note:* Chûjô (1955: 56) considers Exema as a junior synonym of *Chlamisus*. Karven (1966: 651) considers both generic names as valid.

carnegianus [Chlamisus]. Bokermann 1964: 73-75, f. 30-34. Brasil: Mato Grosso: Cuiabá 7.XII.1962, **holot.**, **allopt., 2 ? parat.** in WBC, M. Grosso: Corumbá, 1 **parat.** CM; Chapada de Guimarães 27 **parat.** in CM, MG; Bahia: 2 **parat.** BM, CSC; Amazonas: Tefé, 2 **parat.** WBC, CSC; Pará, 1 **parat.** BM; Amapá: Porto Santana in MG; Bolivia: Pando: Riberalta in WBC, APC.

One **parat.** «Coleção / Bokermann» print. on red paper; black frame; «Chapa da / Brasíl / Acc. Nº 2966» [sic]. «Nov.» print., both fastened to a white label with a black frame; «2246» typed. 1 **parat.** «Riberalta / Pando - Bolivia / XI-956, Prosen» photogr. from typed; «21215» handwr. Both: «Chlamisus / carnegianus / paratipo ? [handwr.] / Bokermann det. 1963 [print.]» on red paper, black frame. Ex AMG.

chapadiensis [Chlamisus]. Bokermann 1962b: 159-161, f. 16-20. Brasil: Mato Grosso: Chapada do Guimarães, 220 ex., 210 of them leg. Oliveira 24-29.X.1961, **holot.**, **allopt., 5 ?, 2 ? parat.** in WBC. «Chlamisus / carnegianus / paratipo ? [handwr.] / Bokermann det. 1963 [print.]» on red paper, black frame. Ex AMG.

cleroides [Cylindrodachrys]. Monrós 1944: 149-151, f. 1a. Several **spec.** Catamarca Prov.: Belén: La Ciénaga, leg. Weiser & Wolters, ex BRC; 1 spec. San Luis Prov. ex BRC; 1 spec. Paraguay, sub 45093.
Holot. and allot. Catamarca Prov.: Pomán: Colpés V.1942 in MC; 4 parat. Santiago del Estero Prov.: Campo Gallo III.1943 (2 in APC, 2 in MC). 2 spec. Catamarca Prov. in JBC. 3 spec. La Rioja Prov. in JBC. 6 spec. from different localities in MVC. No other types formally designated.

Twelve parat. glued to cards, on 7 pins (2 with one, 5 with two) «La Ciénaga (Belén) / Catamarca 1925 / Weiser Wolters leg.» print., 2 of the labels only «192»; «Col. / C. Bruch» printed; «Paratipo» handwr. on white paper, red frame; «Cylindrodachrys / cleroides / mihi [handwr.] / F. Monrós det. 1945 [one of them 1946] [print.]» on pink paper; 1 parat. id. but «La Ciénaga/Catam. Wolters» handwr. by Bruch; 1 parat. «Rep. Argentina / Prov. San Luis / 190 / C. Bruch» print.; «Paratipo» handwr. and «Cylindrodachrys / cleroides / mihi» as the former; 1 parat. «45093» handwr., red frame [the entry 45093 in the register of the Entomological Division of the Museum reads «Paraguay VI.1939», bought to Pedro Willin]; «192»; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, black frame; «Octotoma / Daguerrei» handwr., cut; «Uroplata / (Codiohispa) / daguerrei (Pic) / Daguerrei n. sp.» handwr., cut; «Uroplata / (Codiohispa) / daguerrei (Pic) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales» [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. One of us (AOB) added «Syntypes» handwr. on red paper. Ex BRC.

**Note:** Except for the holot. and the allot., all other spec. were recorded as «ejemplares» [spec.], so rendering it uncertain if they were intended to conform the type series.

**concinus** [Chlamisus]. Bokermann 1964: 74-80, f. 45-49. Brasil: Minas Gerais: Jacutinga: Serra do Cipó leg. Martínez XII.1962. holot. ♂, allot. ♀, 5 ♀, 3 ♀, 2 ♂ in WBC, 1 ♂, 1 ♀ in AMC.

Two parat. «Serra do Cipó / M. Gerais - Brasil / XI.1962 / A. Martínez col.» handwr., black frame; «2167» [2162] typed; «Chlamisus / concinus / paratipo ♂ / (♀) [handwr.] / Bokermann det. 1963 [print.]» on red paper, black frame. Ex AMC.

**coscaroni** [Eugenysa]. Viana 1968: 9, 13, 23-28, 96, pl. i: 4, pl. v: 30. Panamá: cerro Campana XI.1963 leg. Coscarón, holot. ♂, allot. ♀ in MACN. Parat. in USNM. holot. ♂, allot. ♀, the ♀ with an antenna glued to a further card, «Co Campana PA / XI-63 Coscarón» handwr.; «Holotypo», [Allotypus], print. on red cardboard; «Eugenysa / coscaroni / Viana n. sp. [handwr.] / Museo Argentino de Ciencias Naturales» [print.] [obverse] / Det. M. Viana / IV.1967 Holotipo [Aloptio] [handwr.] [reverse]» on red cardboard.

coya [Chlamisus]. Monróes 1952b: 604-606, f. 91, 141. Jujuy Prov., holot. in MACN. holot. «Jujuy» handwr. on green paper, reverse white; «53386» handwr., red frame; «Holotyo» print. on red paper; «Chlamisus / coya / mihi [handwr.] / F. Monróes det. 1948 [print.]» on pink paper.

daguerr [Octotoma]. Pic 1930: 45-46. Buenos Aires Prov.: Rosas, leg. Daguerrei, in BRC and PC.

One synt. «Typus» handwr. by Bruch on pale green paper; «Rosas FC. Sud / Provincia de Buenos Aires / Juan B. Daguerrei» print.; «Col. / C. Bruch» print.; «51030» handwr., red frame; «Octotoma / Daguerrei / Pic [handwr.] / C. Bruch determ.» [print.] on white paper, black frame; «Octotoma / Daguerrei n. sp. » handwr., cut; «Uroplata / (Codiohispa) / daguerrei (Pic) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales» [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. One of us (AOB) added «Syntypes» handwr. on red paper. Ex BRC.

**Notes:** Transferred to Uroplata by Uhmann (1938: 370). Included in Uroplata (Codiohispa) by Monróes & Viana (1947: 292-293, pl. xxiv: 98), who state to have examined this type. There is no type designation in the original description, nevertheless Descarpentiers & Villiers (1959) mention that the holotype of this species is deposited in the Muséum National d’Histoire Naturelle in Paris. Staines & Staines (1997:7) mention that eight specimens from the Daguerrei collection are deposited in the USNM, and that these USNM plus Paris spec. should be considered as syntypes.

decolorata [Temnodachrys (Eudachrys)]. Monróes 1954: 204-205, f. 310. Santiago del Estero Prov. 2 parat. in BRC. holot. Santiago del Estero Prov.: Colonia Dora in APC.

Two parat. «Rep. Argentina / Prov. Santiago d. Estero / 190 / C. Bruch» print.; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, red frame; «Dachrys / decolorata / mihi [handwr.] / F. Monróes det. 1951 [print.]» on pink paper. Ex BRC.

densepunctata [Urodera hamatifera ssp.]. Monróes 1954: 243, f. 359. Jujuy Prov., 15 parat. ex BRC; 1 parat. Chaco Prov.; 1 parat. Misiones Prov.; Puerto Aguirre, leg. Hayward; 2 parat. without locality label, leg. Girard, all these in MACN. Holot. Salta: Gáemes, leg. Martínez in MC, other parat. in MLP, FIML, MC.

Fifteen parat., pinned «Rep. Argentina / Prov. Jujuy / 190 / C. Bruch» print.; ex BRC. 1 parat., pinned «Chaco» handwr. on green paper, reverse white; «7725» handwr, red frame; 1 parat., pinned «Puerto Aguirre / Misiones / Leg. / Girard 1934» print., hardly legible; «Col. / A. Breyer» print.; 1 parat., pinned «R.A. Sgo / 1906 Girard» handwr., «16773» handwr., red frame, this one ex ABC. All: «Paratipo» handwr. on white paper, red frame; «U. hamatifera / ssp. densepunctata / mihi [handwr.] / F. Monróes det. 1951 [print.]» on pink paper.
**difficilis** [Anoplitis]. Monrós & Viana 1947: 210-211, pl. xi: 39. Misiones Prov.: Loreto, leg. Ogloblin, 2 synt. in MACN; other synt. in Bol. Chulumani, den. in MLP; Misiones Prov.: Loreto in MC; Misiones Prov.: San Javier in MLP; Entre Ríos Prov.: Paraná, leg. Bridarolli, on Canavalia ensiformis.

One synt. «Dibujado» [drawn] handwr.; «Misiones. Loreto / 11.1936 [obverse] / Bosq [reverse]» handwr. by Bosq; «s/hojas Canavalia» handwr.; «51124» handwr., red frame. Both «Cotypus» print. on red handwr.; «Holotypus» handwr. on white paper, «Paratypus» as the former. 1 synt. «Fives Lille / S. Fe» with different measures, handwr. by Jacoby: he gives only one measurement, but the «Cotypus» label suggests more than one spec.

**divisus** [Metallactus]. Jacoby 1908: 853. Argentina: Chaco Prov., 2 synt. in AMC. Chaco Prov.: Resistencia XII.1935 leg. Daguerre; 3 synt. Córdoba Prov. 1 synt. ex BRC; Córdoba Prov. 1 synt. det. U. sobrina, ex HB; Córdoba Prov.: Río Cuarto 1 synt. Catamarca Prov. 1 synt.; Santa Fe Prov.: Fives Lille X.1923, 12 synt. ex BRC; 2 synt. without locality label, one of them «det. U. van.,» ex HB. All of these in MACN. Holot. σ, allot. Ψ from Santa Fe Prov; Fives Lille leg. Caride in MC. Other synt. in MLP, FIIM, MC, APC, MVC.

Six synt., three of them separately pinned, three glued to one card «St. Tomé / Corrientes / 10-923 on one, pinned, 11-926 on two, pinned, 10-928 on the three glued, respectively.» print., dates handwr., red frame; «Paratipo» handwr. on white paper, red frame; «Urodera / duplicata / mihi [handwr.] / F. Monrós det. 1953 [print.]» on pink paper, ex GPC three synt. glued to cards, on one pin «Chaco / Argentina parat., / Dep. Resistencia / X-XII-935 / J.B. Daguerre», print.; «46187» handwr., red frame, one synt. pinned, «Chaco» handwr. on green paper; «6882» handwr., red frame. one synt. «Rep. Argentina / Prov. Córdoba / 16.II.1902 / C. Bruch» print., date handwr.; «Jac. ¥» handwr.; «Col. / C. Bruch» print.. one synt. pinned «Cordova» print. on green paper; «Col. / Antigua» print. one synt., pinned «Río 4º / Cordob.» handwr.; one synt. «Catamarca» handwr. on green paper, «10210» handwr., red frame. eleven synt. on cards, on five pins (two with three, two with two, one with one) «Fives Lille / S. Fe» with different dates, handwr.; one synt. on a card «Rep. Argentina / Prov. Santa Fe / 190 / C. Bruch» print. one synt., pinned, without locality label, «Col. / Antigua», print. one synt. pinned, without locality label, «6646» handwr., red frame. All: «Paratipo» handwr. on white paper, red frame; «Urodera / duplicata / mihi [handwr.] / F. Monrós det. 1953 [print.]» on pink paper.

Note: Moldenke (1981: 111) described the subgenus Paraurodera (Torrouradera) and transferred Urodera duplicata to it.

**ebeninus** [Monachus]. Burmeister 1877: 63. Patagonia: Santa Cruz River.

One synt. «S. Cruz / Patagonia» print. on green paper; on the bottom of the drawer a label reads «ebeninus Nob.» handwr. by Burmeister. Ex HB.

Notes: Currently in Lexiphanes Gistl 1850 nom. nov. pro Monachus Déjean 1835, Chevrolat 1837, non Fleming 1822 nec Kaup 1829. Leng (1918: 208) proposed Monachulus as a replacement name.

**elongaticeps** [Charistena]. Pic 1928b: 101-102. Salta 15.II.1905, in BRC.

Holot. «Rep. Argentina / Prov. Salta / 15.II.1905 / C. Bruch» print., date handwr.; «Col. / C. Bruch»
fasciata [Probaenia]. Weise 1906: 225. Brasil IX.1901, ex BRC
One synt. «Typus» print. on pale green paper; «Rep. Brasil / IX.1901 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «Probaenia / fasciata / Weise-tipo» handwr. by Bruch, red frame; «Probaenia / fasciata m.» handwr., cut. Ex BRC.

fasciatus [Xenochalepus bicostatus ab.? b]. Weise 1922: 31. Paraguay; Santa Trinidad leg. Zürcher VIII.1913 (unavailable name).
fasciatus [Xenochalepus (Hemichalepus) bicostatus subsp.]. Monrós & Viana 1947: 245, pl. xix: 72.
Holot. «Dubbijado» [drawn] handwr.; «Paraguay / Sa. Trinidad / VIII-1913» print., date handwr.; «Col. / C. Bruch» print.; «50975» handwr., red frame; «X. bicostatus ab. fasciatus / Ws.?» handwr. by Bruch, red frame; «bicostat ab. fascia?» handwr., cut; «Xenochalepus / (Hemichalepus) / bicostatus / Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white paper, black frame.
Note: The name is unavailable as from Weise 1922 (it was published as a dubious ‘aberration’). Monrós & Viana (1947: 245, pl. xix: 72) examined the holot., and redescribed it as a subspecies, so conferring availability.

fernandoi [Himatidium]. Bondar 1940b: 849-850. Brasil: Bahia; Jequié and Nazareth, on flowers of Galatea (Marantaceae). Type in BC, «cotypes» in BM and ERJ.
One parat. «Brasil / E Bahia / Mun. Jequie / Bondar leg. / Coll. Martinz 5-IV-1940» handwr.; «Cotype» print. on dark red paper with a black frame; «Himatidium / fernandoi / Bondar», handwr. on white paper with a black frame; «Imatidium / Fernandoi / Det. Bondar» handwr., remainings of a black frame.
Notes: Imatidium is the correct spelling. A synonym of Cephaloleia opaca Baly, 1858.

figueroae [Myochrous]. Brèthes 1925: 16. [Buenos Aires Prov.]: La Plata 12.IV.1923 leg. R. Figueroa, one spec.
Holot. «La Plata / 12.IV.923 / R. Figueroa López» handwr.; «Repreparo / M. Viana / I-1960» handwr.; «Myochrous / platenis Brèthes» handwr. by Brèthes; one of us (AOB) added «Myochrous / figueroae / Brèthes» handwr. on red cardboard, and «Holotypus» print. on red cardboard with a black frame. Ex JBR.

flavifrons [Monachus]. Burmeister 1877: 64. Southern Patagonia, Santa Cruz Stream.

florianoi [Himatidium]. Bondar 1942: 38-39. Brasil: Bahia: Bonfim, and Feira de Santa Ana, 115
cotypes in BC, MZSP, FMNH.

One synt. [Brasil / E. Bahia / Mun. Bonfin / F. Mendonça leg. / Coll. Martínez] handwr.; «Cotytopus» print. on dark red paper, black frame; «Himatidium / floriano / Bondar» hadwr. on white paper, black frame; «Imatidium / Florianoi / Det. Bondar» handwr. on white paper with remainings of a black frame.

Notes: Imatidium is the correct spelling. Borowiec (1999: 184) refers this species to the genus Demotispa.

gemignani [Stenispa]. Monrós & Viana 1947: 167-168, pl. ii: 7. Misiones Prov.: Concepción: Santa María, holot. ♂, allott. ♀ in MACN, 80 parat. in MC, MVC.

Holot. ♂, allott. ♀ 1 parat. «Misiones Argentinia / Dep. Concepc. Sta. Maria / M.J. Viana» print.; «51113» handwr., red frame; «Holotypus / Allotypus, Paratypus» print. on red [red, yellow] cardboard; «Stenispa / gemignani / Monrós-Viana / Holotipo ♂ / Paratipo» handwr. on red [red, yellow] cardboard, the parat. in addition «Dibujado» [drawn] handwr. 5 parat. similar labels but «X-1946» and «51192» handwr.

Note: Staines & Staines (1997: 9) mention that sixteen paratypes of this species are located in USNM.

graminis [Coptocyela]. Burmeister 1870: 281. Tucumán Prov. and «agro Bonaerensi».

Two synt., pinned «Tucuman» and «Buen. / Ayres» respectively, print. on green paper, the last one «653» print. One of us [AOB] added «Coptocyela / graminis / Burmeister 1870 / Syntypus» handwr. on red cardboard. Ex HB.

Notes: A synonym of Metriona (Metriona) tenella (Klug 1829), sub Cassida, after Spaeth (1914: 137). The spec. is labelled «Plagiometrina» handwr. with pencil by Viana.

guarani [Chlamisus]. Monrós 1952b: 627-628, f. 151. Corrientes Prov.: Santo Tomé leg. Pellerano X.1925, holot. in MACN.

Holot. «♀» «S. Tomé / Corrientes / 10-925» print., date handwr., black frame; «53394» handwr., red frame; «Holotypus» print. on red cardboard, black frame; «Chlamisus / guarani / mihi [handwr.]» / F. Monró det. 1950 [print.] on pink cardboard. Ex GPC.

hepperi [Epitrix]. Bryant 1951: 940, f. 3. [Córdoba Prov.]: Río Cuarto III.1948 leg. Hepper on potato plants; Buenos Aires Prov.: San Miguel leg. Hepper; Balcarce II.1948 leg. Hepper; SE of Buenos Aires Prov. XII.1945, 22 spec., leg. Hepper.

Two synt., parat. ? glued to cards, on one pin, three circular «Paratype» labels with yellow border; «Río 4º / s/papa 1940» handwr.; «Com. Inst. Ent. / Coll. N°. 12021» print., number handwr.; «53426» handwr., red frame; «Epitrix / hepperi / Bryant [handwr.] / G.E. Bryant det. [print.] on white paper.

immersa [Cassida]. Spaeth 1909: 389-390. [Santa Fe Prov.?]. Rosario; Brasil; Buenos Aires, coll. Clavareau; Buenos Aires ex BRC (MLP); [Uruguay]: Montevideo ex MCSN.

One synt. «Rep. Argentina / Prov. Buenos Aires / 4.XII.1895 / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Cassida / immersa / Speth.» handwr. by Bruch, red frame; «Cassida / immersa typ! [handwr.] / Spaeth det. [print.] cut. Ex BRC.

inaurata [Mesomphalia]. Burmeister 1870: 275-276. Tucumán, «Männchen» [male].

Two synt. «Tucumán» print. on green paper. On the bottom of the drawer a label reads «inaurata» Nob. / Rep. Arg. Br.» handwr. by Burmeister; «Col. Antiqua» print. / Ex HB.

Notes: Recorded as Pseudomesomphalia inaurata by Spaeth (1914: 38). Barber & Bridwell (1940: 9) considered Pseudomesomphalia as a synonym of Stolas. There are two further spec. labelled «4174» [handwr.] and «Tucuman» [print. on green paper]. In the old general register of the Museum, the entry 4174 corresponds to a large ensemble of insects collected in Tucumán by Dinelli, entered in 1898.

infirmior [Probaenia]. Weise 1906: 225. Buenos Aires Prov. XI.1903.

One synt. «Typus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 11.1903 / C. Bruch» print., date handwr.; «Tigre» handwr. by Bruch; «51017» handwr., red frame; «Probaenia / infirmior Weise - tipo» handwr. by Bruch, red frame; «Probaenia / infirmior m.» handwr., cut; «Probaenia / crenata / ab. nigripes / (Chap.) / Det. M. Viana» [handwr.] / Museo Argentino de Ciencias Naturales
211, pl. iii: 5. Tucumán, 946° handwr. on yellow cardboard. «Holotipo de la var.» handwr., red frame; «Megalopus / 27.11.1908 / C. Bruch» print., date handwr.; jacobyi fore 1960, and is therefore available. Catamarca Prov., inornatus Ex F. Monrós det. 1950 [print.]» on pink cardboard. One of us (AOB) added addition «Chlamisus / inopinatus / mihi [handwr.] / F. Monrós det.» on white cardboard with a red frame; «Holotypus [Paratypus]» printed on red [yellow] cardboard with a red frame; «Typus» printed on pale green paper; «Megalopus / Jacobyi / m. tipo [handwr. by Bruch] / C. Bruch determ. [print.]». The other two «Rep. Argentina / Prov. Tucumán / 5.II.1908 [on one, the other III.1908] / C. Bruch» print., date handwr.; one of them «Typus» print., on pale green paper; one of us (AOB) added «Megalopus / Jacobyi / Bruch 1908 / Syntypus» [-Syntypus?] handwr. on red cardboard, black frame. All ex BRC.

Notes: The type condition of the last spec. is dubious, as it lacks an original «Typus» label. Monrós (1947c: 208, 212-213, pl. 5: 4, f. 51e) recorded it under Megalopus (Mucromegalopus).

**informis** [Chelymorpha reimoseri subsp.]. Spaeth 1928: 3, footnote. Jujuy Prov.: Volcán, ex BRC; Catamarca Prov., ex BRC.

Two synt., pinned, «Typus» print. on pale green paper; «Rep. Argentina / Prov. Catamarca / 3.IV.1907 [5.IV.1907] / C. Bruch» print., date handwr.; «Typus» print. on pale green paper. One of them, in addition «♀», «Spaeth det.» print.; «Chelymorpha / informis Spth - tipo» handwr. by Bruch, red frame; «Chelymorpha [print.] / informis m. ♀ type! [handwr.]» on white paper. One of us (AOB) added to both «Chelymorpha / reimoseri / informis / Spaeth 1928 / Syntypus» handwr. on red cardboard with a black frame. Ex BRC.

Note: Hincks (1950: 509) considers Chelymorpha as a synonym of Cyphomorpha Chevrolat.

**inopinatus** [Chlamisus]. Monrós 1952b: 629-620, f. 152. Corrientes Prov.: Santo Tomé, leg. Pellerano XI.1927, holot., 5 parat. in MACN.

**Holot.**, 4 parat. «S. Tomé / Corrientes / 11-927» print., date handwr., black frame; the parat. in addition «G. Pellerano» handwr.; «53392» handwr., red frame; «Holotypus [Paratypus]» printed on red [yellow] cardboard with a black frame; «Typus» print. on pale green paper; one of us (AOB) added «Chlamisus / inopinatus / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink cardboard. Ex GPC.

**inornatus** [Megalonus vespa var.]. Monrós 1947c: 211, pl. iii: 5. Tucumán, holot. in BRC.

**Holot.**, pinned «Rep. Argentina / Prov. Tucumán / 27.11.1908 / C. Bruch» print., date handwr.; «Holotipo de la var.» handwr., red frame; «Megalonus / vespa / mihi / v. inornatus / mihi / F. Monrós det. 946» handwr. on yellow cardboard. Ex BRC.

Note: The name was described as a variety before 1960, and is therefore available.

**jacobyi** [sub Jacobyi] [Megalopus]. Bruch 1908: 716-717, 1 f. Salta, 1 spec.; Tucumán Prov.: Tafí III.1908; Richter obtained several spec. Two (three?) synt., pinned. One of them «Rep. Argentina / Prov. Salta / 190 / C. Bruch» print.; «Typus» printed on pale green paper; «Megalopus / Jacobyi / m. tipo [handwr. by Bruch] / C. Bruch determ. [print.]». The other two «Rep. Argentina / Prov. Tucumán / 5.II.1908 [on one, the other III.1908] / C. Bruch» print., date handwr.; one of them «Typus» print. on pale green paper; one of us (AOB) added «Megalopus / Jacobyi / Bruch 1908 / Syntypus» [-Syntypus?] handwr. on red cardboard, black frame. All ex BRC.

Notes: The type condition of the last spec. is dubious, as it lacks an original «Typus» label. Monrós (1947c: 208, 212-213, pl. 5: 4, f. 51e) recorded it under Megalopus (Mucromegalopus).

**juncta** [Cephalodonta]. Weise 1906: 222. Brasil VII.1901.

One synt. «Rep. Brasil / VII.1901 / C. Bruch» print., date handwr.; «Col. / C. Bruch» printed; «50932» handwr., red frame; «Typus» print. on red paper; «Cephalodonta / juncta / Weise - tipo» handwr. by Bruch, red frame; «Cephalodonta / juncta m.» handwr., cut; «Sceloenopla / (Sceloenopla) / pretiosa / Baly / Det. M. Viana [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.]» on X-1947 [handwr.] [reverse]» on white cardboard with a black frame. Ex BRC.

Notes: Considered a synonym of Sceloenopla pretiosa (Baly 1858) by Uhmann (1937b: 206, 208-209, who examined a type in ZMB); recorded as Sceloenopla (Sceloenopla) pretiosa Baly by Monrós & Viana (1947: 186-187, pl. 23) who examined a spec. of juncta labelled «Typus» in MACN.

**lacordairei** [Tennnodachrys]. Monrós 1954: 200, f. 30b. Jujuy, 1 parat. in MACN. Holot. from Jujuy Prov.: Ledesma in FIML; other parat. in MC, APC.

One parat. «Jujuy» handwr. on dark green paper, reverse white; «Paratipo» handwr. on white paper with a red frame; «7274» handwr., red frame; «Dachrys / lacordairei / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper.

**laeticicus** [Chalepus]. Weise 1906: 224. Formosa II.1895.

One synt., «Typus» print. on pale green paper; «Rep. Argentina / Gob. Formosa / 2.1895 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «50970» handwr., red frame; «Chalepus / laeticicus / Weise - tip.» handwr. by Bruch, red frame; «Chalepus laeticicus W.» handwr., cut; «Xenochalepus / (Xenoch.) / faustus / laeticicus / Weise / Det. M. Viana [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.]» on X-1947 [handwr.] [reverse]» on white cardboard, black frame. Ex BRC.
Note: Recorded as *Xenochelepus* (*s. str.*), *faustus*
Weise ab. *laetificus* by Monró & Viana (1947: 238-239, pl. xv: 59) who examined this syntype.

**lanuginosa** [*Urodera*]. Monró 1954: 239-240, f. 35b. Santiago del Estero Prov.: Salado River 1 *parat*.; Santa Fe Prov.: Fives Lille, leg. Weiser, 1 *parat*., both in *MACN* ex *BRC*. Holot.*. *parat*.

Santiago del Estero: Salado River in *MC*; 1 *parat*.
in APC.

Two *parat*., one of them «Sgo. del Estero / Río Salado / Wagner col.» print., black frame; the other «Fives Lille / S.F. Weiser» print. Both: «Paratipo» handwr., red frame, «Col. / C. Bruch» print., and «Urodera / lanuginosa / mihi» [handwr.]. F. Monró del. 1952 [print.] on pink paper. *Ex BRC*.

Note: Moldenke (1981: 111) erected the new genus *Paraurodera* and mentioned that it is doubtful to place *Urodera lanuginosa* in it.

**liliacea** [*Lema*]. Burmeister 1877: 54-55. Paraguay.

Two *synt.* pinned, one of them «Paraguay» print. on dark green paper, the other without label. One of us (AOB) added to both «Lema / liliacea / Burmeister» handwr. on red cardboard. *Ex BRC*.

Note: Recorded by Monró (1951: 476) as *Lema (Lema) liliacea* Burmeister = *L. quinquevittata* Pic 1941.

**limbata** [*Cephalolia*]. Pic 1928c: 4. 

One *synt.* «Delta / Paraná Guazú / 29.11.929. Bosq» handwr. by Bruch; «Col. / C. Bruch» print.; «50910» handwr., red frame; «Typus» print. on red paper; «Cephalolia [sic] / llimbata [sic] / Pic» handwr. by Bruch on white paper; «Cephalolia / limbata n. sp.» handwr., cut; «Himantidium / limbatum / (Pic) / Det. M. Viana» handwr. by Viana / Museo Argentino de Ciencias Naturales [print.] on white cardboard with a black frame. *Ex BRC*.

Notes: Recorded as *Himantidium limbatum* by Monró & Viana (1947: 160-161, pl. v: 21) who examined the type series, and as *Cephaloleia limbata* by Descarpentries & Villiers (1959: 139) who report one *parat* in *PC*. The type locality corresponds to the Paraná River Delta, in Buenos Aires Prov. *Cephaloleia* is the correct spelling.

**llajtamaucanus** [*Chlamisus hispidulus* subsp.]. Monró 1951: 454, 455-456. Mendoza, 1 *parat*. ex *BRC*; La Rioja, 1 *parat*. ex *ABC*; Córdoba, 1 *parat*., all in *MACN*. Holot. Santiago del Estero Prov.: Llajtamaucua L1944 in *MC*. *parat*. in *MC*, *JBC*, *USNM*, *MLP*, *MP*.

Two *parat*., one of them «Rep. Argentina / Prov. Mendoza / 190 / C. Bruch» print.; «Col. / C. Bruch» print., with red ink; «53375» handwr., red frame.

The other «Argentina / La Rioja» printed; «Col. / A. Breyer» print.; «53374» handwr., red frame. Both «Paratypus» print. on yellow cardboard with a black frame; «Chlamisus / hispidulus / llajtamaucae / mihi» [handwr.] / F Monró det. 1949 [print.] on pink paper.

**maculata** [*Uhmannispa*]. Monró & Viana 1947: 172-174, pl. vi: 24. Chaco Prov.: Fontana 5.III.1935 leg. Meyer, *holot.* in *MACN*. Chaco Prov., 1 *parat*. in *MLP*; Chaco Prov.: Puerto Tirol, leg. Daguerre 1 *parat*.

Holot. «Dibujado» [drawn], handwr.; «Argentina / Chaco / print. ; «46859» handwr., red frame; «Holotypus» print. on red cardboard; «Uhmannispa / maculata / Monró - Viana / Holotipo» [handwr.]; Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.][reverse] on white cardboard, black frame.

Notes: A synonym of *Cephaloleia maxima* Umann, 1942. A parat. deposited in the Daguerre collection is now in the USNM (Staines & Staines 1997: 13).

**martinezi** [*Miocalaspis*]. Viana 1968: 8, 54, 60-63, 101, pl. iii: 16, pl. vi: 42. Bolivia: Cochabamba: Chapare: Locotal 1200 m a.s.l. leg. A. Martínez II.1952, holot. *♂*, alloc. *♀ in* *MACN*. 1 *♀ parat*. in *AMC*.

Holot. *♂, alloc. *♀* «Bolivia / D° Cochabamba / Peia. Chapare / Locotal. 1200 m / Coll. Martínez / Feb. 952» handwr.; «Holotypus», «Alotypus» print. on red cardboard, black frame; «Miocalaspis / martinezi / Viana / Holotipo *♂* [Alotipo *♀*] [obverse] / M. Viana X-1968 [handwr., reverse] handwr. on red cardboard. 1 *parat*. «La (?) 558(50) Agenysa sp.? El Palmar / 1600 m / Bolivia / Prov. Chapare / Dept. Cochabamba. 1952- handwr. with pencil, folded; «Paratypus» print. on yellow cardboard, black frame; «Miocalaspis / martinezi / Viana / Paratipo *♀* [obverse] / M. Viana X-1968 [reverse] handwr. on yellow cardboard, black frame; the last one ex *AMC*.

**martinezi** [*O mocera*]. Viana 1964: 63-66, f. 1-4. Brasil: Minas Gerais: Serra do Cipó, Vao da Lagoa, leg. Martinez XII.1962, holot., *allot*. 2 *parat*. in *MACN*, 1 *parat*. in *MVC*, 5 *parat*. in *AMC*.

Holot., *allot.* 8 *parat*. «Brasil . E° Minas Gerais / Serra do Cipó / Vao da Lagoa / Coll. Martinez / Dic. 1962» handwr.; «Holotypus / Allotypus, Paratypus» print. on red [red, yellow] cardboard, black frame; «O mocera / martinezi / Viana / Holotipo *♂* [Alotipo *♀*, Paratipo] [obverse] / VI-1964 [reverse] handwr. on red [red, yellow] cardboard; 5 of the *parat.* ex *AMC*.
mauliki [Himatidium]. Bondar 1941: 273-274. Brasil: Bahia: Cachoeira 5.V.1940; typus in BC, cotypes in BM.

One parat. «Brasil / E° Bahia / Mun. Cachoeira / Bondar leg. / Coll. Martínez / 5-V.1940» handwr.; «Cotype» print. on dark red paper, black frame; «Himatidium / mauliki / Bon» handwr. on white paper; black frame; «Imatidium / Mauliki / Det. Bondar» handwr., remaininghs of a black frame. Ex AMC.

Notes: The correct spelling is Imatidium. A synonym of Cephaloleia bondari Monróš, 1945 (nom. novum).

melochiae [Chlamisus]. Monróš 1952b: 529-530, 541, 551, 600-602, f. 64, 89, 116, 139. Entre Ríos Prov.: Concordia, leg. Daguerre, 2 parat. in MACN.

Holot., parat. in FIML; other parat. FIML, MC, MVC, JBC, SCT.

Two parat. «Entre Ríos / Concordia / Daguerre» print.; «Entre Ríos / Concordia / J.B. Daguerre» handwr.; «26323» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Chlamisus / sphaeralceae / mihi [handwr.] / F. Monróš det. 1948» print.» on pink paper.

Note: Under the heading «Chlamisus melochiae» there are in the drawer two specimens from Concordia, Entre Ríos Province, Argentina. Both are rottulated «Paratypus», and one of them is rottulated also «Chlamisus sphaeralceae». At the Instituto Lillo, Tucumán, where the other types are housed, the specimens are also rottulated «sphaeralceae», not «melochiae». In the rather extensive paper of Monróš, Chlamisus melochiae is the only species collected on Sphaeralceae sp. (Malvaceae) and on Melochia sp. (Sterculiaceae), no other species come from any of these plants. Probably Monróš wished to name the species after a nourishing plant, but he failed to replace the labels from the specimens. Therefore I decided to hold the specimens as authentic, and we add to them an additional label reading «Chlamisus melochiae Monróš 1952. Acta zoologica lilloana 10: 600-602» print. on white paper.

meridionalis [Saxinis]. Monróš 1954: 258-260, f. 377-380. 2 parat. Jujuy, ex BRC; 2 parat. without locality data, all of these in MACN. Holot. ©, allot. ©, several parat. Córdoba Prov.: Pampa de Olaen. I.1946 in MC, other parat. in BM, USNM, MLP, DEI, MC, MVC.

Two parat. «Rep. Argentina / Prov. Jujuy / 190 / C. Bruch» print.; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, red frame; «Saxinis / meridionalis / mihi [handwr. by Monróš] / F. Monróš det. 1951 [1952]» print.» on pink paper.

missionensis [Anisostena s. str.]. Monróš & Viana 1947: 203, pl. xii: 45. Misiones Prov.: Dep. Concepción: Santa María, leg. Viana, 23 cotypes in MACN, MC, MVC.

Two synt. «Misiones- Argentina / Dep. Concepc. Sta. Maria / M.J. Viana» print.; «51120» handwr., red frame; «Cotypus» print. on red cardboard with a black frame; «Anisostena / (Anisostena) / missionensis / Monróš - Viana - cotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on red cardboard, black frame. One of them «Dibujado» [drawn] handwr.

Notes: Staines (1993: 187-188) refers this species to his new subgenus Anisostena (Apostena). Two syntypes are deposited in the USNM.

elegans [Amplipalpa]. Weise 1905: 52. In a key; Buenos Aires.

One synt., one parat. «Rep. Argentina / Prov. Buenos Aires / 24.V.1903 [21.V.1903] / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «50901 [50902]» handwr., red frame; «Typus» [«Cotypus»] print. on pale green paper; one of them «Amplipalpa / neglegens / Weise - tipo» handwr. by Bruch, red frame; both «Oediopalpa / neglegens / Weise» [«Weise» / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr., reverse]» on white cardboard, black frame.

Note: Recorded as Oediopalpa neglegens by Blackweder (1946: 717).

neivai [Himatidium]. Bondar 1940a: 205-209, f. 1-3. Brasil: Bahia: Agua Preta, holot. in BC, 19 parat. in IIE, ERJ.

One parat. «Brasil / E° Bahia / Agua Preta / P. Silva leg. / Coll. Martínez» handwr.; «Cotype» print. on dark red paper with a black frame; «Himatidium / neivai / Bondar» handwr. on white paper, black frame; «Imatidium / Neivai / Det. Bondar» handwr. on white paper, remaininghs of a black frame.

Notes: The correct spelling is Imatidium. Borowiec (1999: 185) refers this species to the genus Demotispa.

negroplicta [Epitrix]. Bryant 1951: 938-939, f. 1. [Buenos Aires Prov.]: Balcarce leg. Hepper II.1948, 3 spec. on potato plants.

One synt.? parat.? «Paratype» printed on a yellow-margined disk; «ex planta de papa», «Balcarce II-1948 / H.C. Hepper», both handwr. by Hepper; «Com. Inst. Ent. Coll. no. 12021» printed, number handwr.; «53427» handwr., red frame; «Epitrix / nigroplicta / Bryant [handwr.] / G.E. Bryant det. [print.]» on white paper.

Note: The spec. are rottulated as paratypes, but they could be syntypes.
nigrovittis [Metallactus]. Jacoby 1908: 855. Argentina: Chaco [perhaps a single spec., as only one measurement is given]

Holot.? synt., not even a type? «Rep. Argentina / Gob. Chaco / 190 / C. Bruch» printed; «Cotypus» printed on pale green paper; «Metallactus/nigrovittis/Jac.» handwr. by Bruch, red frame. Ex BRC.

Note: The type condition is dubious, as the only identification label is handwr. by Bruch, not by Jacoby.

notaticeps [Brachycoryna]. Pic 1928c: 4.

Two synt. One of them «Typus» handwr. by Bruch on pale green paper; «Hualfin / Catam. 17.1.23» handwr. by Bruch; «Col. / C. Bruch» print.; «50996» handwr., red frame; «Brachycoryna / notaticeps / Pic / Det. M. Viana [handwr. by Viana] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. The other one «Typus» handwr. by Bruch on pale green paper; «La Cienaga / Catam. Wolters» handwr. by Bruch; «Col. / C. Bruch» print.; «50997» handwr., red frame. Both «Brachycoryna / notaticeps / Pic» handwr. by Bruch. Ex BRC.

octoguttatus [sub octo-guttatus] [Griburius]. Burmeister 1877: 65-66. [Entre Ríos Prov.]: Paraná.

Two synt., pinned, one of them «Parana / Jan.» print. on green paper, the other without labels. One of us (AOB) added to both «Griburius / octoguttatus / Burmeister 1877 / Syntypus» handwr. on red cardboard. A label fastened to the bottom of the drawer reads «octo - guttatus» handwr. by Burmeister. Ex HB.

oyaguava [Temnodachrys (Eudachrys)]. Monrós 1954: 191-192, f. 297. Córdoba, 1 parat. in BRC. Holot., allot. 1 parat. Misiones Prov.: Pindapoy, leg. Bosq, in MC.

One parat. «Rep. Argentina / Prov. Córdoba / 190 / C. Bruch» print.; «Col. / C. Bruch» print.; «Paratipo» handwr. on white paper, red frame; «Dachrys / oyaguava / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper. Ex BRC.

pallipes [Decatelia]. Weise 1922: 31. Paraguay: Santa Trinidad X.1913 leg. Zürcher.

Holot. on a card, «Typus» print. on pale green paper; «Paraguay / Sa. Trinidad / IX.1913» print., date handwr.; «Col. / C. Bruch» print.; «51001» handwr., red frame; «Decatelia / pallipes / Weise» handwr. by Bruch, red frame; «Decatelia / pallipes m.» handwr., cut. Ex BRC.

Note: Recorded as Paradecatelia pallipes by Uhmann (1951: 334).

pallipes [Temnodachrys complexa ssp.]. Monrós 1954: 207-208. Corrientes Prov.: Santo Tomé X.1927 leg. G. Pellerano 1 parat. ex GPC in MACN. Holot. and several parat. Misiones Prov.: Posadas VII.1945 in MC; other parat. FIML, MLP, MC, MVC, APC.

One parat. «S. Tomé / Corrientes / 10-927» print., date handwr., black frame; «Paratipo» handwr., red frame; «D. complexa / ssp. pallipes / mihi [handwr.] / F. Monrós det. 1951 [print.]» on pink paper. Ex GPC.

parallela [Stenispa]. Pic 1930: 45. Buenos Aires Prov.: Rosas, leg. Daguerre, in BRC and PC. Types not formally designated.

Three synt. on cards, on 2 pins «Rosas - FC.Sud / Provincia de Buenos Aires / Juan B. Daguerre» print.; «Col. / C. Bruch» print.; «50914» on the pin with 1, «50915» on the pin with 2, handwr., red frame; «Typus» print. on red paper on the pin with 1; handwr. by Bruch on pale green paper on the pin with 2; «Stenispa / parallela / Pic» handwr. by Bruch; «Stenispa / parallela n.sp.» handwr., cut; «Stenispa / parallela / Pic / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. One of us (AOB) added «Syntypus» and «Syntypi» respectively, handwr. on red cardboard. Ex BRC.

Note: Descriptions & Villiers (1959) state that the holotype is housed in the Muséum National d'Histoire Naturelle in Paris. Three specimens labelled as paratypes are deposited in the USNM. Staines & Staines (1997:17) consider all the specimens, those in Paris and those in Buenos Aires, as syntypes.

persimilis [Griburius]. Burmeister 1877: 66. Buenos Aires.

One synt., pinned «Buen. / Ayres» print. on dark green paper. One of us (AOB) added «Griburius / persimilis / Burmeister 1877 / Typus» handwr. on red cardboard. Ex HB.

planicollis [Lema]. Burmeister 1877: 56. Paraguay, with var. a to d.

Six synt., pinned on 5 pins, 1st and 4th pins without labels, 2nd, 3rd (with 2 spec.) and 5th pins «Paraguay» print. on dark green paper. One of us (AOB) added to all pins «Lema / planicollis / Burmeister 1877 / Syntypus [Syntypus]» handwr. on red cardboard. Ex HB.

Note: Synonymized with Lema orbignyi (Guérin 1844) by Monrós (1947a: 169) along with L. dorsalis Frers 1922.

polichroma [Lema]. Monrós 1952a: 33-42, f. 1, 3-25. Salta, 2 spec. ex HB, Tucumán, 3 spec. ex BRC;
Tucumán Prov.: Tafi 1 spec. ex BRC; Santiago del Estero, 7 spec. ex BRC. Other spec. MLP, FIML, MC, JBC. Types not formally designated. Twelve synt., 3 of them «Rep. Argentina / Prov. Tucuman / 3.1.1908 [9.11.1908] / C. Bruch» print., dates handwr. 1 of them «Valle Tafi / Tucumán» handwr. by Bruch. 7 of them «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print., the first one of this series of 7, in addition, «Lema / (Quasilema) / polychroma / Monrós [handwr.] / F. Monrós det. 1952 [print.],» all of these ex BRC. 1 of them pinned, «Salta» handwr. on green paper, 2a spec. without labels. One of us (AOB) added to all «Lema / Ernoporus Porteri Brèthes - type! - Chili - Porte leg. Quillota», handwr. by Brèthes, «Ernoporus Porteri Brèthes», «type!» handwr., the 1st one with a small square piece of red paper. One of us (AOB) added «Lema / Chelymorpha / polyspilota» handwr. on red cardboard. A slide «Ernoporus Porteri Brèthes - type! - Chili - Porter leg. Quillota», handwr. by Brèthes, sub E.10 in slide collection.

Note: Recorded by Monrós (1957: 186) as a synonym of Lema (Quasilema) latipennis Pic 1941 = L. latebifasciata Pic 1951.

polyspilota [Chelymorphe]. Burmeister 1870: 278. [Uruguay]: Montevideo, leg. Arachavaleta. One synt., originally pinned, later glued to a card by Viana, «Banda / orient.» print. on dark green paper; «Col. / Antigua» print.; «polyspilota» Nob. / Rep. orient.» handwr. by Burmeister. One of us (AOB) added «Chelymorphe / polyspilota / Burmeister / Typus» handwr. on red cardboard. Ex HB. Notes: The spec. was filed by Viana in the drawer under Anacassis cibirrum [Klug 1829] in the collection of MACN. Hincks (1950: 509) considered that Chelymorphe Chevrolat 1838 is a synonym of Cyphomorpha Hope [1840]. With «Banda Oriental» - Uruguay is meant.

porcata [Lema]. Burmeister 1877: 56-57. Paraguay, 1 spec. Two synt., pinned, one of them «Paraguay» printed on dark green paper; the other without labels. One of us (AOB) added «Lema / porcata / Burmeister 1877» and «Syntypus» handwr. on red cardboard. Ex HB. Notes: The second spec. could not even be a type, as Burmeister mentions only one spec.. Monrós (1948: 212) suggests this could be a variety of L. orbignyi (Guérin 1844).

porteri [Ernoporus]. Brèthes 1928: 213-214. Chile: Quillota, leg. Porter. Two synt., «Quillota / 5.VIII.1894 / C.E. Porter», «Ernoporus / Porteri / Brèthes», «type!» handwr., the 1st one with a small square piece of red paper. One of us (AOB) added both «Syntypus» handwr. on red cardboard. A slide «Ernoporus Porteri Brèthes - type! - Chili - Porter leg. Quillota», handwr. by Brèthes, sub E.10 in slide collection.

Note: Monrós (1959: 31) recorded it as a synonym of Ernoporus splendida (Philippi), transferred from Oyarzuna.

proxima [Lema]. Burmeister 1877: 54. Paraguay. Four synt., pinned on 3 pins, 1a (with 2) and 3b pins «Paraguay» print. on green paper, 2a pin without labels. One of us (AOB) added to all «Lema / proxima / Burmeister 1877 / Syntypi [Syntypus]» handwr. on red cardboard. Ex HB. Notes: Monrós (1947a: 169) put paraguayensis de Borre, and paraguensis: Clavereau in Schenking as synonyms of proxima. Monrós (1951: 476) included the species in Lema (Quasilema), and put L. maculipes Pic as a synonym.

proxima [Stenispa]. Monrós & Viana 1947: 169-170, pl. ii: 9. Corrientes Prov.: Paranal Bravo River in GKC. 14 cotypes in MACN, MC, AMC, MVC, GKC. Two synt., one of them «Corrientes / N. Viana» handwr. «51112» handwr., red frame; the other one «Dibujado» [drawn] handwr.; «R. Bravo / Delta» handwr., black frame; «51111» handwr., red frame. Both «Cotypes» print. on red cardboard; «Stenispa / proxima / Monrós · Viana / Cotipo [handwr.] / Museo Argentino de Ciencias Naturales» print. on red cardboard. Notes: Gaedicke & Döbler (1971: 358) report two synt. from Entre Ríos Prov. in DEI. Under «R. Bravo» the Paraná Bravo Stream is meant. Staines & Staines (1997:18) mention that seven specimens from Monrós collection are in the USNM.

quadriplagiata [Epitrix]. Bryant 1951: 939-940, f. 2. [Buenos Aires Prov.]: Balcarce II.1948, 9 spec. leg. Hepper; La Rioja Prov.: Patquía XII.1932, 2 spec. on potato plants. Two synt.?, parat.?, on cards, on 1 pin, «Paratype» on 2 disks with yellow border; «ex hojas de planta de papa» [from leaves of potato plants], «S. Miguel / BA. III.48 / H.C. Hepper», handwr. by Hepper; «Com. Inst. Ent. / Coll. no. 12021» print., number handwr.; «Epitrix / quadriplagiata / Bryant [handwr.] / G.E. Bryant det. [print.]» on white paper. Notes: San Miguel was not mentioned in the original description, but otherwise the labels seem authentic. The spec. are rotulated as paratypes, but they could be syntypes.

quinquenotata [Mecistomela (Coraliomela) thoracica var.]. Berg 1900: 255. Paraguay, and [Argentina:] Misiones Prov.; in MACN. One synt., pinned, «Parag.» handwr. on green paper, reverse white; «Col. / Antigua» print.;
«51104» handwr., red frame; «Typus» print. on red paper; «var. quinquemaculata / Berg» handwr. by Berg on yellowish paper; «Coraliomela / thoracica / ab. : quinquemaculata / (Berg) / Det. M. Viana [handwr.]/ Museo Argentino de Ciencias Naturales [print.]/ X-1947 / [handwr.]/ X-1947» [reverse] on white cardboard with a black frame. One of us (AOB) added «Typus» handwr. on red cardboard.

Note: Recorded as Coraliomela quadriramulata var. quinquemaculata by Fischer (1935: 286), and as Coraliomela thoracica ab. quinquemaculata by Monrós & Viana (1947: 181-182, pl. X: 32),

rectecarinata [Aulacochlamys]. Monrós 1952b: 658-661, f. 172 a-c. Corrientes Prov.: Santo Tomé leg. Pellerano, 3 parat. in MACN. Holot., Tucumán Prov.: San Javier 3.XII.1944 Golbach leg., in FIML, other parat. in MC.

Three parat. «S. Tomé / Corrientes / 2-925 [on one, the other two without date]» print., black frame, date handwr.; one of them in addition «Santo Tomé / Corrientes / G. Pellerano» handwr.; «53403» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Aulacochlamys / rectecarinata / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink [white] paper.

Note: Described from two syntypes, the other two to a syntype or to a paratype. It is clear if the term «Cotypus» on the second one refers to a syntype or to a paratype.

rectecarinata / mihi [handwr.] / Museo Argentino de Ciencias Naturales ab.: quinquemaculata / (Berg) / Det. M. Viana [handwr.]/ Museo Argentino de Ciencias Naturales [print.]/ X-1947 / [handwr.]/ X-1947» [reverse] on white cardboard with a black frame. One of us (AOB) added «Typus» handwr. on red cardboard.

Note: Recorded as Coraliomela quadriramulata var. quinquemaculata by Fischer (1935: 286), and as Coraliomela thoracica ab. quinquemaculata by Monrós & Viana (1947: 181-182, pl. X: 32),

rectecarinata [Aulacochlamys]. Monrós 1952b: 658-661, f. 172 a-c. Corrientes Prov.: Santo Tomé leg. Pellerano, 3 parat. in MACN. Holot., Tucumán Prov.: San Javier 3.XII.1944 Golbach leg., in FIML, other parat. in MC.

Three parat. «S. Tomé / Corrientes / 2-925 [on one, the other two without date]» print., black frame, date handwr.; one of them in addition «Santo Tomé / Corrientes / G. Pellerano» handwr.; «53403» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Aulacochlamys / rectecarinata / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink [white] paper.

Note: Described from two syntypes, the other two to a syntype or to a paratype. It is clear if the term «Cotypus» on the second one refers to a syntype or to a paratype.

rectecarinata / mihi [handwr.] / Museo Argentino de Ciencias Naturales ab.: quinquemaculata / (Berg) / Det. M. Viana [handwr.]/ Museo Argentino de Ciencias Naturales [print.]/ X-1947 / [handwr.]/ X-1947» [reverse] on white cardboard with a black frame. One of us (AOB) added «Typus» handwr. on red cardboard.

Note: Recorded as Coraliomela quadriramulata var. quinquemaculata by Fischer (1935: 286), and as Coraliomela thoracica ab. quinquemaculata by Monrós & Viana (1947: 181-182, pl. X: 32),

rectecarinata [Aulacochlamys]. Monrós 1952b: 658-661, f. 172 a-c. Corrientes Prov.: Santo Tomé leg. Pellerano, 3 parat. in MACN. Holot., Tucumán Prov.: San Javier 3.XII.1944 Golbach leg., in FIML, other parat. in MC.

Three parat. «S. Tomé / Corrientes / 2-925 [on one, the other two without date]» print., black frame, date handwr.; one of them in addition «Santo Tomé / Corrientes / G. Pellerano» handwr.; «53403» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Aulacochlamys / rectecarinata / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink [white] paper.

Note: Described from two syntypes, the other two to a syntype or to a paratype. It is clear if the term «Cotypus» on the second one refers to a syntype or to a paratype.

rectecarinata / mihi [handwr.] / Museo Argentino de Ciencias Naturales ab.: quinquemaculata / (Berg) / Det. M. Viana [handwr.]/ Museo Argentino de Ciencias Naturales [print.]/ X-1947 / [handwr.]/ X-1947» [reverse] on white cardboard with a black frame. One of us (AOB) added «Typus» handwr. on red cardboard.

Note: Recorded as Coraliomela quadriramulata var. quinquemaculata by Fischer (1935: 286), and as Coraliomela thoracica ab. quinquemaculata by Monrós & Viana (1947: 181-182, pl. X: 32),

rectecarinata [Aulacochlamys]. Monrós 1952b: 658-661, f. 172 a-c. Corrientes Prov.: Santo Tomé leg. Pellerano, 3 parat. in MACN. Holot., Tucumán Prov.: San Javier 3.XII.1944 Golbach leg., in FIML, other parat. in MC.

Three parat. «S. Tomé / Corrientes / 2-925 [on one, the other two without date]» print., black frame, date handwr.; one of them in addition «Santo Tomé / Corrientes / G. Pellerano» handwr.; «53403» handwr., red frame; «Paratypus» print. on yellow cardboard with a black frame; «Aulacochlamys / rectecarinata / mihi [handwr.] / F. Monrós det. 1950 [print.]» on pink [white] paper.

Note: Described from two syntypes, the other two to a syntype or to a paratype. It is clear if the term «Cotypus» on the second one refers to a syntype or to a paratype.
Twenty-six parat., on 17 pins. Spec. 1st, 2nd «Tucumán / C. Bruch / I.1907» handwr., «Col. / C. Bruch» print. with red ink, «53398» handwr., red frame. Spec. 3rd, 4th «Tuc. / I.1914 / (? not legible)» handwr. Spec. 5th «Rep. Argentina / Prov. Tucumán / I.1907 / C. Bruch» print., date handwr., «Col. / C. Bruch» print., «53398» handwr., red frame. Spec. 6th through 9th «Argentina / Chaco» handwr., «32170» handwr., red frame. Spec. 10th «Rep. Argentina / Gob. Chaco / 190_ / C. Bruch» print., «Charata / X-1924. Bosq» handwr. by Bruch, «Col. / C. Bruch» print. with red ink, «53394» handwr., red frame. Spec. 11th through 14th, on 2 pins, «Rep. Argentina / Prov. Corrientes / 190_ / C. Bruch» print., «Col. / C. Bruch» print. with red ink, «53400» handwr., red frame. Spec. 15th through 18th, on 3 pins «S. Tomé / Corrientes» print., with different handwr. dates, «53401» handwr., red frame. Spec. 19th through 26th «Santo Tomé / Corrientes» print., with different handwr. dates; «53401» handwr., red frame. All: «Paratypus» print. on yellow cardboard, «Chlamisus / sordidulus / mihi [handwr.] / F. Monrós det. 1949 [print.]» on pink [some, other white] paper, «Paratypus» print. on white cardboard, «Chlamisus / sordidulus / mihi [handwr.] / F. Monrós det. 1949 [print.]» on pink [some, other white] paper.

**spaethi** [Himatidium]. Bondar 1941: 274-275. Brasil: Bahia: Pituba 12.V.1940. **Holot.** in **BC**, 13 parat.

1 parat. «Brasil / Eº Bahia / Pituba / Bondar leg. / 12-V-1940» handwr., «Cotypus» print. on dark red paper, black frame, «Himatidium / spathai / Bondar» handwr. on white paper with a black frame, «Imatidium / spaethi / Det. Bondar» handwr. on white paper, remainings of a black frame.

**Note**: Imatidium is the correct spelling.

**sparsa** [Bruchia]. Weise 1906: 227. Buenos Aires Prov: La Plata 10.XI.1903.

**Holot.**, «Typus» print. on pale green paper, «Rep. Argentina / Prov. Buenos Aires / 10.XI.1903 / C. Bruch» print., date handwr., «Col. / C. Bruch» print., «50995» handwr., red frame, «Bruchella / sparsa / Ws.» handwr. by Bruch, red frame, «Bruchi / sparsa» handwr., cut, «Bruchia / sparsa / Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame.

**Notes**: Monró & Viana (1947: 259-260, pl. xvii: 68) examined this type in MACN. Descarpentries & Villiers (1959) did not mention the genus.

**striolatus** [Chlamisus]. Bokermann 1964: 65-67, f. 1-5. **Holot.** with **parat.** with **Mato Grosso: Cuiabá 7.XII.1962, in WBC; parat.** in **MG, CM, CSC**.

One parat. «Coleção / Bokermann» print. on red paper, black frame, «Cuiabá / M. Grosso - Brasil
sulcatifrons examined, but the only repository recorded is X-1947 [handwr.] [reverse]». Argentino de Ciencias Naturales [print., obverse] / sulcatifrons / Pic / Det. M. Viana [handwr.] / Museo cut, there are some other illegible traits; «Stenispa green frame, «Stenispa / sulcatifrons n.sp.» handwr., «Stenispa / sulcatifrons / Pic» handwr. by Bruch, «Corrientes / San Roque / II-920 - Bosq» handwr. Prov.: San Roque II.1920, species to an «Paria / subaenea» handwr., cut. «Paria / subaenea / Jac.» handwr. by Bruch, red frame; «tina / Prov. Buenos Aires / 190_ / C. Bruch» print.; «Cryptocephalus / subaeneus / Jac.» 190_ / C. Bruch» print., «Cotypus» print. on pale Tucumán, in subaenescens feature.

Monrós & Viana (1947: 166, 167, pl. ii: 203, f. 308, 314. Córdoba: Alta Gracia: La Granja, 3 parat. ex BRC; 1 parat. without locality label, both in MACN. Holot. Córdoba: Calamuchita, leg. Viana XII.1938, in MC. Other parat. in JBC, APC, and MC.

Three parat. on cards, on 1 pin, «Alta Gracia, La Granja / Sierras de Córdoba / XII-921. C. Bruch leg.» print., date handwr., «Col. / C. Bruch» print. 1 parat., pinned +17235 handwr., red frame. Both: «Paratipo» handwr. on white paper, red frame, and «Dachrys / sympathica / mihi [handwr.] / F. Monrósd det. 1951 [print.]» on pink paper.

Note: In the registration book of the Entomological Division of MACN the entering 17235 refers to an assemble of insects collected by A. Pozzi and A. Zotta during a trip to Jujuy Prov., XI-XII.1925.

tandilensis [Chalepus]. Bruch 1933: 220-224, f. 3, pl. iii: 6. [Buenos Aires Prov.:] Tandil: Sierra de las Animas XII.1930 (the ‘typical’ spec., 15.X.1932 a ‘later’ spec.), all leg. Koehler.

One synt. «Typus» and «Foto» handwr. by Bruch on pale green paper, «Tandil / Sierra d.l. Animas / P Köhler. XII-930» handwr. by Bruch, «Col. / C. Bruch» print., «50971» handwr., red frame, «Ch. (Xenochelepus) / tandilensis / Bruch [handwr. by Bruch] / C. Bruch determ. [print.]» on white paper, black frame, «Xenochelepus / (Xenochelepus) / tandilensis / Bruch / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame. Ex BRC.

Notes: No type was formally designated in the original description. A syntype from the Daguerre collection is now in the USNM (Ward et al 1976). Gaedicke & Döbler (1971: 361) report a synt. in DEI. Staines & Riley (1994: 219) refer Chalepus tandilensis to the subgenus Xenochelepus. Monrós & Viana (1947: 240-241, pl. xvii: 63) upgraded the subgenus Xenochelepus to the generic rank.

tesselata [Poecilaspis]. Burmeister 1870: 276. Tucumán.

One synt. on a card, but originally pinned, «Tucumán» print. on green paper, «Col. / Antigua» print., «Typus» print. on red cardboard; «tesselata Nob.» handwr. by Burmeister on a label fastened to the bottom of the drawer. Ex HB.

Notes: Recorded under subgenus Poecilaspis by Spaeth (1914: 47); and under genus Botanochera by Blackwelder (1946: 742).

trinotata [Mecistomela (Coraliomela) thoracica var.]. Berg 1900: 255. Paraguay, in MACN.

Holot., pinned, «Paraguay» print. on green paper, «Col. / Antigua» print., «51113» handwr., red frame, «Typus» print. on red paper, «trinotata Berg» handwr. by Berg on yellowish paper, «Coraliomela / thoracica / ab: trinotata (Berg) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard.

Note: Recorded as Coraliomela thoracica ab. trinotata by Monrós & Viana (1947: 180-181, pl. x: 31) who examined this spec.
**tucumana** ([Cephalolia]. Weise 1904: 439. Tucumán IX.1897, C. Bruch.

2 synt. on cards, on 1 pin, «Rep. Argentina / Prov. Tucumán / X.1897 / C. Bruch» print. date handwr., «Col. / C. Bruch» print., «50903» handwr., red frame, «Typus» print. on red paper; «Cephalalia / tucumana / Weise - tipo» handwr. by Bruch, red frame, «F. Weise determ. 1904» print., «Cephalalia / tucumana / Weise / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on white cardboard, black frame. Ex BRC.

**Notes:** Blackwelder (1946: 720) recorded the species under Cephaloleia, which is the correct spelling. Monrós & Viana (1947: 163-164, pl. iv: 16) put C. saccharina Maulik 1929 as a synonym.

**tucumanus** ([Octhispa], Weise 1922: 31-32. Tucumán 1100 m a.s.l., 28.I.1905, C. Bruch.

**Holot.,** «Typus» print. on pale green paper, «Argentino de Ciencias Naturales [print.]» on yellow cardboard, and «J. Weise determ. 1904» print., «Cephalolia / tucumanus / Monrós [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on white paper, remainings of a black frame, black frame.

**Note:** Chile was not included in the original description, but the country mentioned on the label may be a mistake of Bruch, or of Jacoby; Jacoby stated that he obtained one specimen from Bruch, but the label «Typus» suggests more than one spec. The status of the spec. is, at best, confuse.

**unicolor** ([Metallactus]. Jacoby 1908: 853-854. Brasil, 1 spec. obtained from Bruch.

One spec. «Rep. Chile / 190_ / C. Bruch» print., «Cotypus» print. on pale green paper, «Metallactus / unicolor / Jac.» handwr. by Bruch, red frame.

**Note:** Chile was not included in the original description, but the country mentioned on the label may be a mistake of Bruch, or of Jacoby; Jacoby stated that he obtained one specimen from Bruch, but the label «Cotypus» suggests more than one spec. The status of the spec. is, at best, confuse.

**varians** ([Agathomerus]. Monrós 1945: 146-149, f. 3. 2 parat. Tucumán ex BRC in MACN. 10 cotypes Salta: Coronel Moldes, Lerma Valley 1100 m a.s.l., L.1945, 8 of them in MC, 2 in MLP, on *Alternanthera phylloxeroideas*.

Two parat. «Rep. Argentina / Prov. Tucumán / 190_ / C. Bruch» print., one of them «Agathomerus / quadrimaculatus / (J. Guérin) [handwr.] / F. Monrós det. 946 [print.]».

**Notes:** The type condition is dubious. Both spec. seem to be the ones mentioned by Monrós, but they lack both type and identification labels. In the same paper Monrós (1945: 155) synonymized *varians* with *quadrimaculatus* Guérin 1845, and presumably he removed the labels therefore. Monrós (1947c: 183-185, f. 43, pl. 5: 1) included *quadrimaculatus* in the subgenus Mesagathomerus.

**vianai** ([Stenispa]. Uhmann 1938: 365-366. Buenos Aires Prov.: Tigre, leg. Viana XI.1937, 2 O, 3
vittata [Microtheca]. Weise 1922: 30. Santiago del Estero. Perhaps a single specimen, as only one measure is given.

One synt. «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print. on pale green paper; «Microtheca / vitata / ws.» handwr. by Bruch, red frame.

Note: Bechyné (1952: 62) synonymized this name with *M. punticula* Achard 1917.

willineri [Eugenysa]. Viana 1968: 8, 16, 48-52, 100, pl. iii: 14, VI: 40. Perú: Montenegro: Marañón Stream 7.X.1961 leg. Williner, holot. ♂, allot. ♀. Perú: Tingo María X.1965 leg. Koryktowski, 1 parat. ♂, all in MACN. Another parat ♂ in CMSM.

Holot. allot., one parat. «Peru / Montenegro / Rio Marañon / Leg. Williner [obverse] / 7/X/1961 [reverse]» handwr. on white paper; «Holotypus [Allotypus, Paratypus]» print. on red [red, yellow] cardboard [obverse] / J.M. Viana X-1968 [handwr. [reverse]]; «Eugenysa / willineri / Viana / Holotipo ♂ [Alotipo ♂, Paratipo]» handwr. on red [red, yellow] cardboard.

willinki [Temnodachry (Eudachry)]. Monrós 1954: 188-189, f. 286. Chaco: Charata, leg. Daguerre 3 parat.; Santiago del Estero, 1 parat. ex BRC in MACN. Holot. ♂, allot. ♀. Chaco: Pampa del Indio in FIML, MLP, BM, JBC.

Three parat. on cards, on 1 pin, «Argentina / Charata» print. locality handwr. 1 parat. «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print., «Col. / C. Bruch» print.. All: «Paratipo» handwr. on white paper, red frame; «Dachrys / willinki / mihi [handwr.] / F. Monrós det. 1951 [printed]» on pink paper.

xerophila [Temnodachry]. Monrós 1954: 201-202, f. 307. Santiago del Estero Prov.: Salado River, leg. Wagner, 1 parat. in BRC; La Rioja, km 72, I.1920, 1 parat.; San Luis, 3 parat. in BRC, on ‘quillo’, all of these in MACN. Holot. La Rioja Prov.: Sanagasta, in MC. Other parat. in FIML, MLP, BM, MC.

One parat. on a card, with the left wing extended, «Rep. Argentina / Pr. Santiago d. Estero / 190_ / C. Bruch» print.. 1 parat. «La Rioja k 672 I.1920» handwr. on green paper; reverse white, «28410» handwr., red frame. 1 parat. «Argentina / La Rioja» print.. 3 parat. «Rep. Argentina / Prov. San Luis / 190_ / C. Bruch» print., «Col. / C. Bruch» print., 2 of them «sobre Quillo» handwr., 1 of these, in addition «Pnestes? / instabilis Lac.» handwr., red frame. All: «Paratipo» handwr. on white paper, red frame, «Dachrys / xerophila / mihi [handwr.] / F. Monrós det. 1951 [printed]» on pink paper.

UNAVAILABLE NAMES, AND NAMES NOT FOUND IN THE LITERATURE AND PRESUMABLY NOT PUBLISHED

amazonica [Agenysa]. Spaeth

1 spec. «Cotipo» print. on red paper, black frame; «Amazonas / Rio Yurua / E. Gasbe leg. / ano: 190_» handwr. and print.; «Agenysa / amazonica / nov. cot. ♀ / det. Fr. Spaeth 1927» handwr. and print.; «30003» print.; «Agenysa / caemadens» (Licht.) / Det. M. Viana» handwr.

Note: Recorded by Bruch (1914: 374) as in litteris; Blackwelder (1946: 751) just quotes Bruch’s citation.

argentina [Metriona]. Spaeth

One spec. «Rep. Argentina / Prov. Buenos Aires / 20.IV.1894 / C. Bruch» print., date handwr.; «Typus» print. on pale green paper; «Spaeth det.» print.; «Metriona / Argentina / Spth.» handwr. by Bruch, red frame; «Metriona [printed] / argentina» handwr.; on white paper. Ex BRC.

argentinae [Chalcophana]. Jacoby

Two spec., pinned «Rep. Argentina / Prov. Catamarca / 20.II.1907 / 10.II.1908 / C. Bruch» print., date handwr.; «Typus [Cotypus]» print. on pale green paper. One of them, in addition «Chalcophana / argentinae / Jac. type» handwr. by Bruch, red frame; both «Chalcophana / argentinae [rest illegible]», handwr., cut. Ex BRC.

Note: Recorded by Bruch (1914: 374) as in litteris; Blackwelder (1946: 751) just quotes Bruch’s citation.

jacobyi [Galerucella]. Brèthes

One spec. on a card (remounted, as it has a pinhole), «S. Fe - L. Brochon» handwr.; «Repreparo / M. Viana / I-1960» handwr.; «Galerucella / Jacobyi / Brèthes» handwr. by Brèthes.
**piceidorsis** [Cteisella]. Spaeth

One **spec.** «Rep. Argentina / Prov. Tucuman / 190 / C. Bruch» print.; «Spaeth det.» print.; «Cotypus» print. on pale green paper; «Cteisella piceidorsis Späth - Ctopio» handwr. by Bruch, red frame; «Cteisella piceidorsis m. cotyp!» handwr., cut. **Ex BRC.**

*Note:* Bruch (1914: 373) and Blackwelder (1946: 755), refer the name to Spaeth in litteris.

**sculpturata** [Ctenochira]. Spaeth

One **spec.** «Rep. Argentina / Prov. Misiones / XI.1909 / C. Bruch» print., date handwr.; «Cotypus» print. on pale green paper; «Spaeth det.» print.; «Ctenochira sculpturata Späth» handwr. by Bruch, red frame; «Ctenochira sculpturata m. cotype» handwr., cut. **Ex BRC.**

*Note:* Bruch (1914: 373) and Blackwelder (1946: 757), refer the name to Spaeth in litteris.

**takasei** [Chlamisus]. Bokermann

One **spec.** «Coleção / Bokermann» print. on dark red paper, «Takase / Sao Bernardo / 4-XII-1960 / Werner col.» handwr., black frame, «643» typed, dark red paper, «Takase / Sao Bernardo / 4-XII-1960 / F. Monrós det. 1950» on pink paper. **Ex AMC.**

**variolarius** [Chlamisus]. Monrós

Two **spec.** One of them «S. Tomé / Corrientes / 11-924» print., black frame, date handwr., «51035» handwr., «Cenochira / variolarius / mihi» handwr./ «F. Monró det. 1950» on dark red paper, black frame. **Ex BRC.**

*Note:* Recorded as a † and a ‡ of C. scortillus from Santo Tomé in MACN by Monró (1952b: 602). Perhaps he recognized the identity and decided not to publish the supposed new species.

**SPECIMENS LABELLED AS TYPES BUT NOT INCLUDED IN THE ORIGINAL SERIES OR DESIGNATED IN A NON ACCEPTED TYPE CATEGORY**

**ferruginea** [Uroplata]. Weise 1905: 88-89. Brasil: Jatahy, coll. Donckier.

One **spec.** «Typus» print. on pale green paper «Rep. Argentina / Prov. Tucuman / XI.1899 / C. Bruch» print., date handwr.; «Col. / C. Bruch» print.; «51035» handwr., red frame; «Uroplata / ferruginea / Weise» handwr. by Bruch, red frame; «Uroplata / ferruginea» handwr., cut; «Uroplata / (Codiohispa)» bilineata / Chap. / Det. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse]» on white cardboard, black frame.

**Notes:** Tucumán was not mentioned in the original description; furthermore the identification label of Bruch does not mention «Tipo» as he used to do. Monró & Viana (1947: 283-285, pl. xxvi: 115)

**gracilis** [Uroplata]. Weise 1905: 84-85. Brasil: Jatahy, col. Donckier.

One **spec.** «Cotypus» print. on pale green paper; «Paraguay / Sa. Trinidad / IX-1913» print., date handwr.; «51049» handwr., red frame; «Ochispa / gracilis / Ws» handwr. by Bruch, red frame; «Ochispa / gracilis» handwr., cut; «Ochispa / gracilis / (Weise) / Det. M. Viana» [handwr.] / Museo Argentino de Ciencias Naturales [print.] [obverse] / X-1947 [handwr.] [reverse].

**Notes:** The spec. was taken after the publication date. Recorded under Ochispa by Weise (1911: 35).

**infirmior** [Probaenai]. Weise 1906: 225. Buenos Aires Prov. XI.1903.

One **spec.** labelled «Cotypus» print. on pale green paper; «Rep. Argentina / Prov. Buenos Aires / 5.III.1905 / C. Bruch» print., date handwr.; «51018» handwr., red frame; «Probaenia / crenata / ab. nigripes / (Chap.) / Det. M. Viana [handwr.] / Museo Argentino de Ciencias Naturales [print., obverse] / X-1947 [handwr.] [reverse]» handwr. on white paper, black frame. **Ex BRC.**

**Notes:** The spec. was not mentioned in the original description, and it is not clear if it was even intended to conform the type series, as a single date was recorded (see at the main list).

**interrupta** [Galeruccella]. Jacoby 1904b: 523-524. Mendoza, 2 **spec.** in SKM.

One **spec.** «Rep. Argentina / Prov. Buenos Aires / 190 / C. Bruch» print.; «Cotypus» handwr. by Bruch on pale green paper; «Galeruccella / interrupta / Jac.» handwr. by Bruch, red frame. **Ex BRC.**

**Notes:** Buenos Aires was not mentioned in the original description. Considered a synonym of Sarigueia subvittata (Demay 1838) = Galeruca fulvonigra Fairmaire 1883 = G. murina Blanchard in Orbigny 1843 = G. nigripicta Boheman 1959, by Bechyné & Springlová de Bechyné (1970: 133).

**interrupta** [Probaenia crenata ab.]. Monrós & Viana (1947: 273, pl. xxii: 91. Tucumán Prov., and Paraguay: Santa Trinidad, presumably in MACN. Holot. [repository not stated, presumably in MC], **parat.** in MACN. **parat.** in MC, MVC, etc., from Salta, Jujuy and Tucumán Prov.

Eleven **spec.** One of them «Tucuman» print. on green paper; «Col. / Antigua» printed; «51067»
ornatipennis [Monachus]. Jacoby 1908: 831-832. Tucumán Prov.

One spec. [handwr., red frame, on 1 pin «Argentina / Tucumán / XI.1899 / C. Bruch» print., dates handwr., «51014 [51015]» handwr., red frame; on one, in addition, «P. ornata / v. nigripes Chap.» handwr. by Bruch, red frame, Four of them, on 3 pins, «Argentina / Jujuy» print.; «17253» handwr., red frame. One of them «Argentina / Salta», print.; «33438» handwr., red frame. Three of them, on 2 pins, «Argentina / Tucumán» print.; «51222 [16900]» handwr., red frame. All «Probœnia / crenata / ab: interrupta / Monróvs-Viana. Paratipo [handwr.] / Museo Argentino de Ciencias Naturales [print.]» (reverse) / X-1947 [handwr.] (reverse).

Note: The name is not available, as it was published as an aberratio.

reimoseri [Chelymorpha]. Spaeth 1928: 3, footnote. Entre Ríos Prov.; Paranâ, leg. Reimoser, some 30 spec. in NHMW.

One spec. [handwr., red frame, on 3 pins «Argentina / Tucumán / XII.1906 / C. Bruch» print., date handwr.; «Côtypus» print. on pale green paper; «Monachus / ornatipennis / Jac. 1907» handwr. by Bruch, red frame. Notes: Buenos Aires was not mentioned in the original description. Moreover the second spec. bears a label with green frame, used by Bruch only much later. Both spec. seem to have been identified by Spaeth, who recorded the species under Philaspis (Spaeth 1914: 123).

uhmanni [Sternostena laeta ab.]. Monrós & Viana 1947: 198, pl. xi: 34. Cotypes in MACN, MVC, MC from the same localities as the typical form, [Buenos Aires Prov.:] Tandil, Rosas, Las Flores, Gorchs; [Mendoza Prov.:] Mendoza; Uruguay; Perú.

One spec. «Tandil» handwr. by Bruch, «Col. / C. Bruch» print.; «50937» handwr., red frame, «Sternostena / laeta Ws.» handwr., cut. 1 spec. «B.- A. C. / Girado» handwr., «Col. / A. Breyer» print., «51119» handwr., red frame. 2 spec. on 1 pin «Lincoln B.-A. / C. Girado» handwr., «Col. / A. Breyer» print., «51118» handwr., red frame. 21 spec. on 13 pins «Rosas. F.C. Sud / Provincia de Buenos Aires / Juan B. Daguerre» print., «50938» on 6, «26907» on 3, «24574» on 4 handwr., red frame, 1 of them «Foto» handwr. on pale green paper, and «Sternostena / laeta Ws. var. [handwr. by Bruch] / C. Bruch determ. [print.]» on white paper, black frame, 1 of them «Dibujado» [drawn], almost all with «Col. / C. Bruch» print., «Art. / Bs. Aires» print., «30565» handwr., red frame, 3 spec. «Bs. Aires / Argentina / Las Flores / J.B. Daguerre» print., locality handwr., «51208» handwr., red frame. 6 spec. on 5 pins «Buenos Aires / Argentina / Tandil VI-1937 / M.J. Viana» print., date handwr. «41240» on [5, «51117 on 1» handwr., red frame. All «Côtypus» print. on red cardboard, and «Sternostena / laeta / ab: uhmanni / Monrós-Viana / Cotipo [handwr.] / Museo Argentino de Ciencias Naturales [print.]» on red cardboard.

Note: The name is not available, as it was published as an aberratio.

vigintinotatus [Oedionychis]. Jacoby 1894: 627-628, pl.xxxviii: 10. Brasil: Rio Grande, seemingly a single spec., as only one measure is given.

One spec. «Rep. Argentina / Prov. Buenos Aires / 19.XI.1904 / C. Bruch» print., date handwr. «Côtypus» handwr. by Bruch on pale green paper, «Oedionychis / 20-notata / Jac.» handwr. by Bruch, red frame, «Oedionychis / 20-notata Jac.» handwr., cut. Notes: The spec. was taken after the publication date. Recorded as Oedionychis vigintinotatus by Blackwelder (1946: 713).
