**Molecular groups**

GROUP 1

| Case Number | 1 | 2 | 3 | 4 | 5 |
|-------------|---|---|---|---|---|
| Morphology  | Cellular, epithelioid | Cellular, focal hydropic, minimal hyalinization | Cellular, focal vascular (capillary), focal hydropic, focal hyalinization, minimal hyalinized vessels | Cellular, vascular (capillary), focal hydropic, focal myopericytoma like hyalinized vessels with minimal thrombi and hemosiderin | Usual |

**Table notes:***

- **Chr band**: Chromosome band
- **Nucleotide**: Nucleotide range
- **Size (kb)**: Size in kilobases
- **Log**: Logarithmic value

**Table rows:***

- **1p**: Chr band 1p36.33-p11.2, Nucleotide 749625-120982693, Size (kb) 120,233, Log -0.412438
- **1q**: Chr band 1q21.1-q44, Nucleotide 143787504-247139492, Size (kb) 103,352, Log -0.338612
- **2p**: Chr band 2q11.2-q21.1, Nucleotide 96847390-130333677, Size (kb) 33,486, Log -0.603849
- **3q**: Chr band 4p16.3-p14, Nucleotide 1272129-38896204, Size (kb) 37,624, Log -0.702906
