THE FRONTIERS OF SCHIZOPHRENIA
Milan, 19-20 October 1990

The Psychiatric Clinic of the University of Milan, under the direction of Prof Carlo Lorenzo Cazzullo, in conjunction with the Schizophrenia Research Association and the Tito and Fanny Legrenzi Foundation will organize an international meeting on “The frontiers of schizophrenia” in Milan on 19 and 20 October 1990. In addition to numerous Italian researchers and scholars, some of the most representative foreign experts on schizophrenia will be taking part.

The meeting will address the complex theme of the nosographic, clinical and biological frontiers of schizophrenia.

There will be sessions devoted to: a) disturbances of the schizophrenic spectrum, b) the schizophrenia-like organic psychoses, c) the relations between schizophrenia and disturbances of affectivity and the concept of continuum in the major psychoses, and d) the positive and negative symptoms of schizophrenia.

The objective of meeting is to further the diffusion of the latest data on the border territories between schizophrenia and other psychiatric diseases from the clinicophenomenological, epidemiological and genetic, biological, psychodynamic and therapeutic angles.

The official languages will be Italian and English, with a simultaneous translation service.
