Conference Calendar

July 27-30, 2012—International Academy of Cardiology
17th World Congress on Heart Disease & Annual Scientific Sessions 2012
The Fairmont Royal York, Toronto, ON, Canada
The Congress will provide the opportunity for a comprehensive overview of the latest research developments in cardiovascular medicine, primarily in the areas of molecular biology, coronary artery disease, heart failure, cardiac arrhythmias, and cardiac surgery. We will discuss new and innovative diagnostic methods, prevention and treatment of heart disease, and prognostic algorithms. Integrated into the program will be an update on the latest major clinical trials. http://www.cardiologyonline.com/wchd12/index.html

July 13-15, 2012—Functional Nutrition Course
Hilton New York, NY, United States
In response to the epidemic of lifestyle-related chronic illnesses—now classified as lifestyle syndromes—The Institute for Functional Medicine developed the Functional Nutrition Course (FNC) to provide nutrition assessment and clinical management skills for primary care and nutrition professionals. http://www.functionalmedicine.org/conference.aspx?id=2598&cid=35&section=t97

July 18-21, 2012—39th Annual International Conference on Global Health
Omni Shoreham Hotel, Washington, DC, United States
In the context of competing agendas, restricted budgets and increased calls for positive results, global health is more challenging than ever. How can global health stakeholders define their priorities and harness linkages to maximize outcomes? http://www.globalhealth.org/Conference.html

September 10-14, 2012—Applying Functional Medicine in Clinical Practice (AFMCP)
Ritz Carlton, Marina Del Rey, CA, United States
The Institute for Functional Medicine’s AFMCP teaches healthcare practitioners to more effectively integrate science, research, and clinical insights to treat and prevent disease and maintain health. It is a well-orchestrated, comprehensive, patient-centered education program that helps you deepen your clinical understanding and practical application of the Functional Medicine Matrix Model. http://www.functionalmedicine.org/conference.aspx?id=2565&cid=0&section=t77

August 9-11, 2012—III National and I International Congress on Integrative Medicine
Círculo de Oficiales de Mar, Buenos Aires, Argentina
This conference offers presentations on a diverse range of topics, including contributions of integrative medicine for child and adolescent psychopathology, autoimmune disorders, cancer, stress, 21st-century aging, and the future of integrative medicine. http://www.integrativa2012.org.ar/acerca.html.aspx?id=2565&cid=0&section=t77

October 24-27, 2012—11th Congress of the European Federation of Internal Medicine (EFIM)
Palacio Municipal de Congresos Campo de las Naciones (IFEMA Convention Centre), Madrid, Spain
A total of 34 countries are members of the EFIM, and the congress will appeal to anyone who has an interest in the broad field of general internal medicine and in specialized internal medicine. This congress is dedicated to supporting and promoting an intense interdisciplinary and multidisciplinary knowledge exchange among professionals in the areas that will be the major driving force for future innovations in internal medicine. http://www.efim2012.org/welcome/
July 7-10, 2012—22nd Biennial European Association for Cancer Research (EACR) Congress
Centre Conventions International
Barcelona, Spain
This congress will offer outstanding plenary lectures complemented by focused symposia across 18 topics. There will be opportunities for participants to attend educational sessions as well as invitations to “meet the expert.” Posters will be displayed for review and “defense” in the Exhibition Hall, and all participants will be invited to assist in their evaluation.

August 13-15, 2012—22nd Annual Australian Cardiovascular Health and Rehabilitation Association (ACRA) Conference
Brisbane Convention Centre, Queensland, Australia
The theme of the meeting: Crisis. Recover. Rehabilitate. This conference encompasses the life-changing effect cardiovascular disease has, particularly the psychological, physiological, and often geographical journey that patients go through. This conference aims to recognize the challenges patients face in dealing with cardiovascular disease and the implications this has on services and clinicians caring for these patients.

August 27-28, 2012—Annual Global Healthcare Conference (GHC 2012)
Hotel Fort Canning, Singapore
Funding for health and medical facilities are vital to the health and well-being of the public. But most importantly, health and medical researchers and developers serve the task of advancing healthcare and medical science through the study and proper dissemination of information in order to improve the state of healthcare service of any country. That is the purpose of this conference.
