Bourin, Jean-Christophe; Lee, Eun-Young
Eigenvalue inequalities for positive block matrices with the inradius of the numerical range.
(English) Zbl 07488261 Int. J. Math. 33, No. 1, Article ID 2250009, 10 p. (2022)

MSC:
15A60 Norms of matrices, numerical range, applications of functional analysis to matrix theory
15A42 Inequalities involving eigenvalues and eigenvectors
47A12 Numerical range, numerical radius
47A30 Norms (inequalities, more than one norm, etc.) of linear operators

Keywords:
umerical range; partitioned matrices; eigenvalue inequalities
