ERRATUM to National implementation of reperfusion for acute ischaemic stroke in England: How should services be configured? A modelling study

Allen M, Pearn K, Ford GA, et al. National implementation of reperfusion for acute ischaemic stroke in England: How should services be configured? A modelling study. European Stroke Journal. 2022; 7: 28-40. doi:10.1177/23969873211063323.

SAGE Publishing regrets that the following declaration statements were omitted from the original publication in error:

**Ethical approval**
Ethical approval was not sought for the present study because this study is a computer simulation model based on aggregate stroke admission counts. No individual patient data was used in the study, and no patient treatment was changed during the study. This study was completed in accordance with the Helsinki Declaration as revised in 2013.

**Informed consent**
Informed consent was not sought for the present study because no individual patient data was used in the study, and no patient treatment was changed during the study.
