CORRIGENDUM to Risk of Cancer in a Community Exposed to Per- and Poly-Fluoroalkyl Substances

Mindi FM, Jeffrey S, Nawar S, Ben L, Megan WH and Nora T. Risk of Cancer in a Community Exposed to Per- and Poly-Fluoroalkyl Substances. Environmental Health Insights. 2022; 16: 1-16. https://doi/10.1177/11786302221076707

“In the original article, the colon and rectal cancer numbers from one of the states (Maine) reports only included colon cancers. The state responded to the authors’ request for colorectal cancers and these numbers have now been updated accordingly in the publication. The other sources are in line with the same reporting. The authors apologise for any confusion it may have caused.”
