### Appendix B:

#### B1: Michigan 3rd-5th grade students concerns pertaining to a friend with cancer: 3rd-5th grade respondents who indicated that they did have a friend with cancer responded with these themes.

| Theme                                | Frequency (%) (n = 16) |
|--------------------------------------|------------------------|
| Watching them get sick/suffer        | 7 (43.75%)             |
| Not being able to visit/play         | 5 (31.25%)             |
| Not being able to help               | 1 (6.25%)              |
| I don't remember                     | 1 (6.25%)              |
| Make me feel sad                     | 1 (6.25%)              |
| Worried they might die               | 2 (12.50%)             |
| Not knowing how to treat them/respond| 1 (6.25%)             |

#### B2: Michigan 3rd-5th grade students concerns pertaining to a friend with cancer: 3rd-5th grade respondents who indicated that they did not have a friend with cancer responded with these themes.

| Theme                                | Frequency (%) (n = 59) |
|--------------------------------------|------------------------|
| Watching them get sick/suffer        | 20 (33.90%)            |
| Not being able to visit/play         | 14 (23.73%)            |
| Not being able to help               | 1 (1.69%)              |
| Worried that they would die          | 33 (55.93%)            |
| Not knowing how to treat them/respond| 2 (3.39%)              |
| Worried about stigma                 | 7 (11.86%)             |
| Worried about contagious disease     | 1 (1.69%)              |
| Make me feel sad                     | 5 (8.47%)              |
| Outlier                              | 2 (3.39%)              |

#### B3: Michigan 6th-8th grade students concerns pertaining to a friend with cancer: 6th-8th grade respondents who indicated that they did have a friend with cancer responded with these themes.

| Theme                                | Frequency (%) (n = 42) |
|--------------------------------------|------------------------|
| Watching them get sick/suffer        | 10 (23.81%)            |
| Not being able to visit/play         | 5 (11.90%)             |
| Worried that they would die          | 29 (69.05%)            |
| Not knowing how to treat them/respond| 1 (2.38%)              |
| Worried about stigma                 | 4 (9.52%)              |
| Make me feel sad                     | 4 (9.52%)              |
| Worried about how friends and family cope| 1 (2.38%)        |
| Outlier                              | 1 (2.38%)              |

#### B4: Michigan 6th-8th grade students concerns pertaining to a friend with cancer: 6th-8th grade respondents who indicated that they did not have a friend with cancer responded with these themes.

| Theme                                | Frequency (%) (n = 42) |
|--------------------------------------|------------------------|
| Watching them get sick/suffer        | 0 (0.00%)              |
| Not being able to visit/play         | 0 (0.00%)              |
| Not being able to help               | 0 (0.00%)              |
| Not knowing how to treat them/respond| 0 (0.00%)              |
| Worried about stigma                 | 0 (0.00%)              |
| Make me feel sad                     | 0 (0.00%)              |
| Worried about contagious disease     | 0 (0.00%)              |
| Outlier                              | 0 (0.00%)              |

#### B5: Comparison of concerns between 3rd-5th graders and 6th-8th graders who have a friend with cancer.

| Theme                                | Grade 3rd-5th (n = 16) | Grade 6-8 (n = 19) | P-Value |
|--------------------------------------|------------------------|--------------------|---------|
| Watching them get sick/suffer        | 7 (43.75%)             | 7 (36.84%)         | .7391   |
| Not being able to visit/play         | 5 (31.25%)             | 6 (31.58%)         | .9833   |
| Not being able to help               | 1 (6.25%)              | 2 (10.53%)         | .6526   |
| Worried they might die               | 2 (12.50%)             | 1 (5.26%)          | .5820   |
| Not knowing how to treat them/respond| 1 (6.25%)              | 1 (5.26%)          | .9003   |

#### B6: Comparison of concerns between 6th-8th graders and 6th-8th graders who have a friend with cancer.

| Theme                                | Grade 6th-8th (n = 42) | P-Value |
|--------------------------------------|------------------------|---------|
| Watching them get sick/suffer        | 10 (23.81%)            | .3772   |
| Not being able to visit/play         | 5 (11.90%)             | .9196   |
| Not knowing how to treat them/respond| 1 (2.38%)              | .2166   |
| Worried about stigma                 | 4 (9.52%)              | .7588   |

Appendix C:

#### C1: themes

| Theme                                | Grade 3rd-5th (n = 16) | Grade 6th-8th (n = 19) | P-Value |
|--------------------------------------|------------------------|------------------------|---------|
| Watching them get sick/suffer        | 7 (43.75%)             | 7 (36.84%)             | .7391   |
| Not being able to visit/play         | 5 (31.25%)             | 6 (31.58%)             | .9833   |
| Not being able to help               | 1 (6.25%)              | 2 (10.53%)             | .6526   |
| Worried they might die               | 2 (12.50%)             | 1 (5.26%)              | .5820   |
| Not knowing how to treat them/respond| 1 (6.25%)              | 1 (5.26%)              | .9003   |

#### C2: themes

| Theme                                | Grade 6th-8th (n = 42) | P-Value |
|--------------------------------------|------------------------|---------|
| Watching them get sick/suffer        | 10 (23.81%)            | .3772   |
| Not being able to visit/play         | 5 (11.90%)             | .9196   |
| Not knowing how to treat them/respond| 1 (2.38%)              | .2166   |
| Worried about stigma                 | 4 (9.52%)              | .7588   |
B6: Comparison of concerns between 3rd-5th graders and 6th-8th graders who do not have a friend with cancer.

| Theme                          | Grade 3rd-5th (n = 75) | Grade 6th-8th (n = 61) | P-Value |
|-------------------------------|------------------------|------------------------|---------|
| Watching them get sick/suffer | 27 (36.00%)            | 17 (27.87%)            | 0.3595  |
| Not being able to visit/play | 19 (25.33%)            | 11 (18.03%)            | 0.4061  |
| Make me feel sad              | 6 (8.00%)              | 6 (9.84%)              | 0.7672  |
| Worried they might die        | 35 (46.67%)            | 30 (49.18%)            | 0.8633  |
| Not knowing how to treat them/respond | 3 (4.00%) | 2 (3.28%) | 0.8241 |

B7: Comparison of concerns between 3rd-5th graders and 6th-8th graders unrelated to a friend with cancer.
