The Minerals Engineering Conference 2019 was held in Kocierz, between 16-19 of September 2019. The total number of participants was 78, included representatives from science and industry. The total number of 38 presentations were done, among which 35 were submitted to be published in *IOP Conference Series: Materials Science and Engineering*.

All papers published in this volume of *IOP Conference Series: Materials Science and Engineering* have been peer reviewed through processes administered by the Editors. Reviews were conducted by expert referees to the professional and scientific standards expected of a proceedings journal published by IOP Publishing.

Assoc. Prof. Tomasz Niedoba
