Acknowledgements

We gratefully acknowledge support received from the following agencies:

Belgium – Fund for Scientific Research (FNRS-FWO); Flanders Institute to encourage scientific and technological research in industry (IWT); and Belgian Federal Office for Scientific, Technical and Cultural Affairs (OSTC).

Germany – German Ministry for Education and Research; and Deutsche Forschungsgemeinschaft (DFG).

The Netherlands – Organisation for Scientific Research (NWO).

Sweden – Swedish Research Council; Swedish Polar Research Secretariat; and Knut and Alice Wallenberg Foundation.

Switzerland - M. Ribordy acknowledges the support of the SNF.

USA - National Science Foundation-Office of Polar Programs; National Science Foundation-Physics Division; University of Wisconsin Alumni Research Foundation; Department of Energy; National Energy Research Scientific Computing Center (supported by the Office of Energy Research of the Department of Energy); the NSF-supported TeraGrid system at the San Diego Supercomputer Center (SDSC); and the National Center for Supercomputing Applications (NCSA).

J.D. Zornoza acknowledges the support of the Marie Curie OIF Program (Contract 007921).
