The publisher regret that the presentation of Fig. 3 in the original version of the above article was incorrectly presented. The data in the image were inadvertently omitted during publication process. The correct Fig. 3 is shown as follows:

Publisher’s note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
Fig. 3  General brown bear activity pattern and overlapping activity analysis ($\Delta_1$) in relation to the sex-age group: a adult females vs. subadult females, b adult females vs. subadult males, c adult males vs. subadult females, and d adult males vs. subadult males. Black solid lines indicate adults and dotted lines indicate subadults. The activity records for each sex-age group were $n_{\text{Adult F}} = 373$; $n_{\text{Adult M}} = 739$; $n_{\text{Subadult F}} = 52$; $n_{\text{Subadult M}} = 25$. 

| Time (hrs) | ADULT F | ADULT M | SUBADULT F | SUBADULT M |
|-----------|---------|---------|------------|------------|
| 0:00-6:00| 0.10    | 0.08    | 0.06       | 0.00       |
| 6:00-12:00| 0.06    | 0.04    | 0.00       | 0.00       |
| 12:00-18:00| 0.02   | 0.00    | 0.00       | 0.00       |
| 18:00-0:00| 0.00    | 0.00    | 0.00       | 0.00       |

$\Delta_1 = 0.84$ for Adult F vs. Subadult F, $\Delta_1 = 0.67$ for Adult F vs. Subadult M, $\Delta_1 = 0.75$ for Adult M vs. Subadult F, $\Delta_1 = 0.56$ for Adult M vs. Subadult M.
