Description of Additional Supplementary Files

File Name: Supplementary Data 1
Description: Results of sex analyses.

File Name: Supplementary Data 2
Description: DEGs snRNAseq vs. scRNAseq.

File Name: Supplementary Data 3
Description: GSEA significant results.

File Name: Supplementary Data 4
Description: DEGs LD NK & T cells Vs PBMC.

File Name: Supplementary Data 5
Description: Cell-cell interactions Omnipath.

File Name: Supplementary Data 6
Description: Cell-cell interactions with complexes CellPhoneDB.

File Name: Supplementary Data 7
Description: CellRanger summaries of sequenced samples.

File Name: Supplementary Data 8
Description: Curated cell annotation file.

File Name: Supplementary Data 9
Description: Median gene expression by cluster.

File Name: Supplementary Data 10
Description: Average gene expression by cluster.

File Name: Supplementary Data 11
Description: Median gene expression by cell type.

File Name: Supplementary Data 12
Description: Average gene expression by cell type.
