Cumulative incidence

(A) Primary MR

![Graph showing cumulative incidence for Primary MR]

Number at risk

| Stated / Normal | Normalized | Deteriorated | Persistently impaired |
|-----------------|------------|--------------|----------------------|
| 123             | 100        | 81           | 54                   |
| 67              | 49         | 31           | 23                   |
| 44              | 27         | 21           | 12                   |
| 95              | 60         | 44           | 30                   |

(B) Secondary MR

![Graph showing cumulative incidence for Secondary MR]

Number at risk

| Stated / Normal | Normalized | Deteriorated | Persistently impaired |
|-----------------|------------|--------------|----------------------|
| 151             | 84         | 63           | 47                   |
| 73              | 58         | 46           | 35                   |
| 81              | 45         | 27           | 16                   |
| 182             | 134        | 98           | 69                   |

(C) LV ejection fraction ≥50%

![Graph showing cumulative incidence for LV ejection fraction ≥50%]

Number at risk

| Stated / Normal | Normalized | Deteriorated | Persistently impaired |
|-----------------|------------|--------------|----------------------|
| 152             | 120        | 98           | 52                   |
| 54              | 42         | 25           | 16                   |
| 55              | 34         | 27           | 16                   |
| 70              | 37         | 28           | 19                   |

(D) LV ejection fraction <50%

![Graph showing cumulative incidence for LV ejection fraction <50%]

Number at risk

| Stated / Normal | Normalized | Deteriorated | Persistently impaired |
|-----------------|------------|--------------|----------------------|
| 113             | 84         | 63           | 47                   |
| 83              | 58         | 46           | 35                   |
| 64              | 45         | 27           | 16                   |
| 202             | 134        | 98           | 69                   |
