An increasing trend of neonatal invasive multidrug-resistant group B streptococcus infections in southern China, 2011–2017 [Corrigendum]

Gao K, Guan X, Zeng L, et al. Infect Drug Resist. 2018;11:2561–2569.

In this article both Wenjing Ji and David J McIver were erroneously listed in the acknowledgements but should have been included as coauthors. A communication error at the manuscript submission stage led to both authors being left off the original authorship list. Both Wenjing Ji and David J McIver were originally acknowledged for their assistance with formatting and proofreading and language editing, respectively. However, it was shown both authors also assisted with the interpretation of data and analysis, as well as assisting in drafting the manuscript, extensive editing, recommendations for analysis and the interpretation of findings. The authors wish to apologize for this error. The correct author list and affiliations are shown below.
