Data Sharing Statement

Sledge, Jr. The Effect of Abemaciclib Plus Fulvestrant on Overall Survival in Hormone Receptor-Positive, ERBB2-Negative Breast Cancer That Progressed on Endocrine Therapy-MONARCH 2. *JAMA Oncol.* Published September 29, 2019. 10.1001/jamaoncol.2019.4782

**Data**

**Data available:** Yes  
**Data types:** Other (please specify)  
**Additional Information:** Data and documents, including the study protocol, statistical analysis plan, clinical study report, blank or annotated case report forms, will be provided in a secure data sharing environment.  
**How to access data:** [www.vivli.org](http://www.vivli.org)  
**When available:** With publication

**Supporting Documents**

**Document types:** None

**Additional Information**

**Who can access the data:** Lilly provides access to all individual participant data collected during the trial, after anonymization, with the exception of pharmacokinetic or genetic data. Data are available to request 6 months after the indication studied has been approved in the US and EU and after primary publication acceptance, whichever is later. No expiration date of data requests is currently set once data are made available. Access is provided after a proposal has been approved by an independent review committee identified for this purpose and after receipt of a signed data sharing agreement. Data and documents, including the study protocol, statistical analysis plan, clinical study report, blank or annotated case report forms, will be provided in a secure data sharing environment. For details on submitting a request, see the instructions provided at [www.vivli.org](http://www.vivli.org).
