Supplementary Figure 1

Panel A: Comparison of ID2 mRNA levels between Ewing Model and Isogenic Fibroblasts. The Ewing Model shows a significantly higher ID2 mRNA level compared to Isogenic Fibroblasts (***p < 0.0001).

Panel B: Comparison of ID2 mRNA levels between Doxycycline and Vehicle. The Doxycycline treatment results in a significantly higher ID2 mRNA level compared to Vehicle (***p < 0.0001).
