Supplemental table 1A

| Symptoms                  | Presence of symptoms T0 (%) | Presence of symptoms T1 (%) | P-value   |
|---------------------------|----------------------------|----------------------------|-----------|
| **Probiotic**             |                            |                            |           |
| Post-prandial filling     | 85.4                       | 28.5                       | P<0.0001  |
| Early satiety            | 86.2                       | 30.4                       | P<0.0001  |
| Epigastric pain          | 65.7                       | 23                         | P<0.0001  |
| Epigastric burning       | 61                         | 16.3                       | P<0.0001  |
| Abdominal swelling       | 91.4                       | 30.8                       | P<0.0001  |
| **Probiotic + PPI**      |                            |                            |           |
| Post-prandial filling     | 88.2                       | 44.3                       | P<0.0001  |
| Early satiety            | 85.4                       | 36.7                       | P<0.0001  |
| Epigastric pain          | 80.5                       | 30.5                       | P<0.0001  |
| Epigastric burning       | 75.9                       | 33.6                       | P<0.0001  |
| Abdominal swelling       | 86.9                       | 33.6                       | P<0.0001  |
| **Probiotic + Prokinetics** |                          |                            |           |
| Post-prandial filling     | 96.3                       | 60.3                       | P<0.0001  |
| Early satiety            | 95.7                       | 52.7                       | P<0.0001  |
| Epigastric pain          | 66.4                       | 30.1                       | P<0.0001  |
| Epigastric burning       | 59.9                       | 28.8                       | P<0.0001  |
| Abdominal swelling       | 93                         | 56.9                       | P<0.0001  |
| **Probiotic + Antacids** |                            |                            |           |
| Post-prandial filling     | 91.6                       | 56.8                       | P<0.0001  |
| Early satiety            | 87.3                       | 40.2                       | P<0.0001  |
| Epigastric pain          | 75.4                       | 39.5                       | P<0.0001  |
| Epigastric burning       | 82.4                       | 45.3                       | P<0.0001  |
| Abdominal swelling       | 93.7                       | 55.6                       | P<0.0001  |
| Symptoms                  | Presence of symptoms T0 (%) | Presence of symptoms T1 (%) | P-value |
|---------------------------|----------------------------|----------------------------|---------|
| **Probiotic**             |                            |                            |         |
| Post-prandial filling     | 67.3                       | 22.1                       | <0.0001 |
| Early satiety            | 65.8                       | 19.1                       | <0.0001 |
| Epigastric pain           | 85.9                       | 46.6                       | <0.0001 |
| Epigastric burning        | 73.6                       | 34.4                       | <0.0001 |
| Abdominal swelling        | 80.7                       | 28.3                       | <0.0001 |
| **Probiotic + PPI**       |                            |                            |         |
| Post-prandial filling     | 69.7                       | 35.1                       | <0.0001 |
| Early satiety            | 64.7                       | 28.7                       | <0.0001 |
| Epigastric pain           | 94.8                       | 54.5                       | <0.0001 |
| Epigastric burning        | 89                         | 44.8                       | <0.0001 |
| Abdominal swelling        | 77.5                       | 31                         | <0.0001 |
| **Probiotic + Prokinetics** |                           |                            |         |
| Post-prandial filling     | 86.2                       | 31                         | <0.0001 |
| Early satiety            | 79.6                       | 27.4                       | <0.0001 |
| Epigastric pain           | 97.4                       | 53.5                       | <0.0001 |
| Epigastric burning        | 86.9                       | 44.8                       | <0.0001 |
| Abdominal swelling        | 94.1                       | 36.2                       | <0.0001 |
| **Probiotic + Antacids**  |                            |                            |         |
| Post-prandial filling     | 70                         | 36.5                       | <0.0001 |
| Early satiety            | 63                         | 28.6                       | <0.0001 |
| Epigastric pain           | 94.8                       | 61.9                       | <0.0001 |
| Epigastric burning        | 93.7                       | 41.3                       | <0.0001 |
| Abdominal swelling        | 86.1                       | 34.9                       | <0.0001 |
