| البحوث                                                                 | اسم التدريسي                  |
|----------------------------------------------------------------------|--------------------------------|
| Close following behavior: Testing visual angle car following models using various sets of data | S Yousif, J Al-Obaedi          |
| Transportation research part F: traffic psychology and behaviour 14 (2), 96-110 |                                |
| Microsimulation model for motorway merges with ramp-metering controls | J Al-Obaedi, S Yousif         |
| Intelligent Transportation Systems, IEEE Transactions on 13 (1), 296-306 |                                |
| Modeling factors influencing the capacity of motorway merge sections controlled by ramp metering | S Yousif, J Al-Obaedi         |
| Procedia-Social and Behavioral Sciences 16, 172-183                   |                                |
| Drivers’ Lane Utilization for United Kingdom Motorways                | S Yousif, J Al-Obaedi, R Henson |
| Journal of Transportation Engineering 139 (5), 441-447                |                                |
| The use of visual angle in car following traffic micro-simulation models | JTS Al-Obaedi, S Yousif       |
| Development of traffic micro-simulation model for motorway merges with ramp metering | JTS Al-Obaedi                 |
| University of Salford                                                |                                |
| Examining the limitations for visual angle-car following models       | JTS Al-Obaedi, S Yousif       |
| Estimation of Passenger Car Equivalents for Basic Freeway Sections at Different Traffic Conditions | JTS Al-Obaedi                 |
| World Journal of Engineering and Technology 4 (02), 153               |                                |
| Evaluation of Traffic Accidents Rates in Al-Diwaniya City             | JTS Al-Obaedi                 |
| Journal of Babylon University                                        |                                |
| The use of Recycled Concrete as a Subbase for Highways               | HA Al-Obaedi, J. T. S.        |
| Al-Qadisiya Journal For Engineering 7                                |                                |
| Testing visual angle car following models using different sets of data | JTS Al-Obaedi, S Yousif       |
| Modelling ramp metering at motorway merges                           | JTS Al-Obaedi, S Yousif       |
| Estimation of critical occupancy values for UK motorways from traffic loop detectors | JTS Al-Obaedi, S Yousif       |
| Calibration of visual angle car following model based on real site traffic data | JTS Al-Obaedi              |
