Burns RR, Alpern ER, Rodean J, et al. Factors associated with urgent care reliance and outpatient health care use among children enrolled in Medicaid. *JAMA Netw Open*. 2020;3(5):e204185. doi:10.1001/jamanetworkopen.2020.4185

eTable. Sensitivity Multivariable Analysis of Risk Factors of High Urgent Care Reliance Without ED Visits in the Model

This supplementary material has been provided by the authors to give readers additional information about their work.
**eTable.** Sensitivity Multivariable Analysis of Risk Factors of High Urgent Care Reliance Without ED Visits in the Model

|                        | High UC Reliance (≥33%) | aOR | 95% CI       |
|------------------------|-------------------------|-----|--------------|
| **Age, years**         |                         |     |              |
| <1                     | 0.13                    |     | (0.12, 0.15) |
| 1-2                    | 0.46                    |     | (0.45, 0.47) |
| 3-5                    | 0.88                    |     | (0.87, 0.89) |
| 6-12                   | 1.03                    |     | (1.02, 1.04) |
| 13-18                  | Ref                     |     |              |
| **Gender**             |                         |     |              |
| Male                   | 0.98                    |     | (0.97, 0.99) |
| Female                 | Ref                     |     |              |
| **Race/Ethnicity**     |                         |     |              |
| White                  | Ref                     |     |              |
| Black                  | 0.86                    |     | (0.86, 0.87) |
| Hispanic               | 0.59                    |     | (0.58, 0.60) |
| Other                  | 0.75                    |     | (0.73, 0.76) |
| Missing                | 1.12                    |     | (1.10, 1.13) |
| **Chronic Condition Profile** |                       |     |              |
| No CCC, 0 Chronic Conditions | Ref                  |     |              |
| No CCC, 1 Chronic Condition | 0.61                 |     | (0.60, 0.61) |
| No CCC, 2 Chronic Conditions | 0.45                 |     | (0.44, 0.45) |
| No CCC, 3+ Chronic Conditions | 0.32                |     | (0.32, 0.33) |
| With a CCC             | 0.23                    |     | (0.23, 0.24) |
| **Any Hospitalization in Study Period** |                   |     |              |
| No                     | Ref                     |     |              |
| Yes                    | 0.93                    |     | (0.90, 0.96) |

aOR, adjusted odds ratio; CCC, complex chronic conditions; CI, confidence interval; UC, urgent care.
