Corrigendum

Identification of epistasis loci underlying rice flowering time by controlling population stratification and polygenic effect

Md. Asif Ahsan, Md. Mamun Monir, Xianwen Meng, Md. Matiur Rahaman, Hongjun Chen, and Ming Chen

It has been noted that the word “of” was missing from the manuscript title. The title has now been corrected to: Identification of epistasis loci underlying rice flowering time by controlling population stratification and polygenic effect

Additionally, reference 69 in the sentence “It is well known that protein ubiquitination alter their cellular location, affect their activity and promote or prevent protein interactions.” has been removed.

Both corrections have been made online and in print.
